WILKES-BARRE, PENNA., THURSDAY, FEBRUARY 21, 1935.

No. 8

One Act Plays To Be Given March 1

Casts Representing Faculty, Sophomores, Freshmen Are Selected

On Friday, March 1, casts representing the freshmen, the sophomores, and the faculty will present a program of three one-act plays in the college auditorium. The student plays will be directed by Mary Huntley and Jean MacKeeby. The faculty production will be directed by Miss Kathryn Hughes and Mrs. Donald Stillman.

The casts will be in competition, and the winner of the contest will be decided by the vote of the Bucknell University alumni who will witness the performances. All the alumni of the Wyoming Valley have been invited to attend and will be provided with ballots on which they will cast their votes for the winner. The contest is being sponsored by the Dramatics Society.

The freshman play, "So's Your Old Antique," directed by Mary Huntley, has a cast composed of the following students: Ann Hirko, Robert Mayock, James Ramsey, Jack Malkames, and Lois Devendorf.

The cast of the sophomore play, "A Dispatch Goes Home," is being directed by Jean MacKeeby and includes Edward Hartmann, Edson Shannon, Lorna Holbrook, and Jack O'Donnell.

The faculty will present the well-known play by Lady Gregory, "Spreading the News." The following will take part: Mrs. J. Orin Oliphant, Miss Kathryn Hughes, Miss Majel Brooks, Dr. Irving Churchill, Dr. Roy C. Tasker, Dr. John H. Eisenhauer, Professor John Gold, Mr. Charles Godcharles, Mr. Donald Stillman, and Mr. Vincent McCrossen.

The rules of the contest call for strict secrecy in rehearsals. No cast is to know the nature of either of the other two plays.

The Dramatics Society has announced that tickets sold for this performance will be counted in the ticket sales contest that will be held in connection with the next major production.

Further details concerning this matter will be announced by Cyril Freed, production manager.

Tickets for the program of one-act plays are twenty-five cents for high school students and thirty-five cents for others. Junior College students who have paid the budget fee will be admitted free.

Economists Hear Mayor, Plan First Field Trip

Mayor Charles N. Loveland was the speaker at the monthly luncheon meeting of the Economics Club at the Y. M. C. A. on Monday, February 11. He discussed the complexities of the city budget and the difficulties encountered in drawing up the annual budget for city expenditures. About twenty-five people attended the meeting.

The club has arranged a field trip to the Wilkes-Barre Lace Manufacturing Company, which will be visited sometime this week. The purpose of these field trips is to acquaint students of economics with some of the problems of organization and management in modern industrial concerns. George Jacobs is field trip manager.

Reverend Schewe to Address German Club

The speaker at the meeting of the German Club this evening in the Women's Lounge will be the Reverend W. A. E. Schewe, pastor of the First German-English Lutheran Church of Wilkes-Barre. The club attended a service at Reverend Schewe's church early in January. Refreshments will be served this evening. All members are urged to be present.

HONOR ROLL

The following students made an average of 85 per cent or better during the first semester 1934-35.

Julius Altman, '37	G. A. R. Memorial High School
William George Beiswinger, '37	E. L. Meyers High School
William Francis Boyle, '38	E. L. Meyers High School
Joseph Charles Duddy, '37	Plains Memorial High School
Dora Lillian Elleni, '37	West Pittston High School
Cyril Freed, '37	Pittston High School
Charles Edwards Harrison, '38	Hanover Township High School
Irma Lillian Hewitt, '38	Forty Fort High School
Sarah May Hinton, '38	Kingston High School
Lorna Doone Holbrook, '38	Nanticoke High School
John Gordon Kresge, '38	West Pittston High School
Joseph Prentice Lord, '37	E. L. Meyers High School
Robert Lee Mayock, '38	Coughlin High School
Thomas Joseph Mayock, '37	E. L. Meyers High School
Robert Henry Melson, '37	Forty Fort High School
Robert Lawrence Myers, '38	Kingston High School
Peter Clement Posatko, '37	Plains Memorial High School
Robert Otto Renville, '38	Coughlin High School
Albert Frederick Rohlfis, '37	E. L. Meyers High School
Ambrose Saricks, Jr., '37	G. A. R. Memorial High School
Eleanor Enid Scureman, '37	Kingston High School
Fred Lewis Semmer, '38	Newport Township High School
Clarence John Sweeney, '37	West Pittston High School
Mirko Joshua Tuby, '38	Coughlin High School
Sarah Elizabeth Weller, '37	Kingston High School
Anthony William Yodis, '37	Nanticoke High School

Class of 1937 15 Class of 1938 11

Director Addresses Government Group

Dr. Eisenhauer Speaks On Education; Scrap Book Planned

Dr. John H. Eisenhauer was guest speaker at the second dinner meeting of the Political Science Club of the Junior College at the Y. M. C. A. last Monday evening. Dr. Eisenhauer's subject was "State Control of Education." Dr. J. Orin Oliphant, faculty adviser of the club, also spoke. James Ramsey, president, was toastmaster. Fifteen persons attended the dinner, which was arranged by a committee composed of Marian Wall, chairman, Robert Mayock, and Margaret Austin.

The club has completed plans for the making of a scrap book from current newspaper clippings concerning governmental affairs. Various committees will be busy at work the rest of the semester collecting clippings from the different newspapers. The four subjects to be treated in the scrap book, with the chairman of the committees handling them, are as follows: Supreme Court decisions, Robert Mayock; National Legislation, Marian Wall; State Government, Ambrose Saricks; Local Government, Ruth Gibbons. When the

(Continued on Page 3.)

GLEE CLUBS PLANNING CONCERT

Program Arranged For Assembly

The Junior College Glee Clubs will present another assembly concert early in March, Mr. Donald Stillman, director of the glee clubs, announced recently. The following program is being prepared:

Villa, from "The Merry Widow"	Lehar
Awake, a chorale	Bach
Who Did?	Negro Spiritual
Shadow March	words by Robert Louis Stevenson
Calm As The Night	Bohm
Lullaby	A. Gretchaninoff

Mr. Stillman will be glad to interview any student desiring to join this musical organization. Male voices are especially needed.

Edwards Elected Debating Manager

Committee Also Selected; Practice Debates Arranged

A team composed of Maxwell Edwards and Ralph Ford, with Thomas Mayock as alternate, will debate a team from Lewisburg next Sunday at Concordia Hall. The debate will be held before the Eighth Ward Democratic Club.

Maxwell Edwards was elected manager of the Junior College Debating Club at a recent re-organization meeting. At the same time Marian Wall and Robert Renville were elected as a general auxiliary committee, and Thomas Mayock and William Orlandi were chosen to organize the debating material submitted by the members of the club.

Practice debates are being held in preparation for the first contest, which is scheduled for Sunday evening, February 24. This debate will take place in Concordia Hall before the Eighth Ward Democratic Club, according to arrangements made by Dr. Tom Mayock, president of the Democratic Club. Miss Catherine Toohey of the Coughlin High School faculty will be guest chairman. The question to be debated is: Resolved, That the nations of the world agree to prevent the international shipment of arms and munitions. Thomas Mayock, James Ramsey, Ralph Ford, and Maxwell Edwards are working on the affirmative side of the question, while Robert Renville, William Orlandi, Lorna Holbrook, and Justin O'Donnell are upholding the negative side.

A few weeks ago several members of the Debating Society were guests at the annual debate between the Amphictyony and Independent Societies at

(Continued on Page 4.)

Dean Rivenburg At Junior College

Dean Romeyn H. Rivenburg will be at the Junior College today and tomorrow to interview students interested in transferring to the campus at Lewisburg next year. Dean Rivenburg will discuss especially opportunities for scholarships and part-time employment.

Basketball Squad To Play Seminary

Game Scheduled For Friday At Coughlin; Team Wins Two

Three more games remain on the basketball schedule of Bucknell University Junior College. Tomorrow night the team will meet strong opposition in the Wyoming Seminary quintet. This game, which will be played in the Coughlin High School gymnasium, should be one of the hardest fought of the season because of the intense rivalry between the two teams. Coach Henry Peters is a former Seminary player and will send his strongest combination against his Alma Mater. On March 2, the team will travel to Princeton, New Jersey, to play the Hun School. A return game with Wyoming Seminary will be played at Seminary on March 8.

Last Saturday night in the Meyers High School gymnasium the Junior College team probably gave its best performance of the season when it defeated the freshman teams of Bucknell University and of St. Thomas College in a double bill. The two games were played on one night because of a schedule mixup.

In the first game of the evening, Bucknell University Freshmen went down to defeat, 29-24, before the excellent playing of Maslowski, Germak, Mills, Tucker, Captain Kolanowski, and Swengel. Maslowski, Mills, and Swengel together scored 25 of the 29 points.

St. Thomas Frosh were defeated 31 to 25. Coach Peters switched his lineup in this game, alternating first and second string men. Gurnari was high scorer with 11 points. Germak, a new man on the Junior College team, was next highest with 10 points. The following players took part in the game: Gurnari, Jack O'Donnell, Tucker, Duncan Thomas, Captain Kolanowski, Germak, Loftus, Charnowitz, Harvey Harrison and Mollahan.

On January 18, the Junior College team was defeated by the freshman team of Colgate University at Hamilton, New York, 37-25. Scott Mills starred for the local team. Debois of Colgate was outstanding, scoring 21 points.

(Continued on Page 3.)

Engineering Club Will Hear Prof. Garman

Warren De Witt Garman, assistant professor of mechanical engineering on the campus, will speak on "The Engineer and Some of His Problems" at the meeting of the Engineering Club this evening. Everyone is invited.

The Engineering Club, together with the Science Club and the Mathematics Club, is arranging to give a series of demonstrations before the science clubs of the various high schools of the community. This plan is part of the effort being made to increase the interest in engineering and to maintain a common ground of fellowship between the freshman and sophomore engineering students. Anthony Yodis is chief engineer of the club. The other officers are James Burns, assistant engineer, and William Boyle, draftsman.

Dr. Eisenhauer To Attend Conference

Director John H. Eisenhauer will attend the fifteenth annual meeting of the American Association of Junior Colleges at Washington, D. C., tomorrow and Saturday.

Discussions will be held on the various phases of the Junior College movement. One of the principal addresses will be delivered by Dr. George F. Zook, Director of the American Council on Education, who will speak on "The Junior College, Dependent or Independent?" Directors of Junior Colleges from all sections of the United States will attend the convention.

An Apology And A Promise

The recent controversy over the Student Budget Fund forced us to commit one of the inexcusable sins of journalism. We missed a publication date. The uncertainties arising out of the financial status of "The Bison Stampede" made it necessary for us to cancel the issue of February 7 until the budget difficulties were straightened out. We must apologize for this cancellation, but we promise that henceforth, barring unforeseen occurrences, the paper will appear at regular two week intervals. Although the spring vacation in April will interfere with one of our regular publication dates, we are planning six more issues for the remainder of the school term.

A Word of Appreciation

Dr. J. Orin Oliphant, who, for the past semester, has been a guiding influence in the publication of "The Bison Stampede", has undertaken additional duties on the campus at Lewisburg. Because his new duties will make it necessary for him to spend a large part of the time at Lewisburg, Dr. Oliphant will be unable to take an active interest in the school publication. He will, however, continue to serve in an advisory capacity. The staff appreciates the work Dr. Oliphant has done and hopes to be able to carry on in the spirit which he has fostered.

A Word To The Wise

By Jean Armstrong

An instrument by means of which electrical waves may be seen forms part of the equipment of the physics laboratory of the Junior College. This instrument, called the cathode ray oscillograph, consists of a cathode ray tube and a sweep circuit.

The evacuated glass vessel, in which there are two pairs of deflecting plates at right angles to each other, is mounted in a magnetic shield. To one pair is applied voltage which increases linearly with time. By combining these two forces and applying them to the electron beam, the beam is caused to be deflected and to write its motion on the florescent screen which composes the end of the tube. If the two waves occur at the same frequency, the wave is stationary and can be seen and photographed if desired.

The linearly varying voltage is applied by a circuit called the sweep circuit, which consists of a condenser, resistance, and some electron tubes for controlling the current. The condenser is charged, and, when the voltage reaches a required amount, it is discharged through one of the electron tubes, thus causing an electrical impulse to be applied to the sweep plates.

In connection with the cathode ray oscillograph, there is an electron oscillator which comprises a circuit containing inductance and capacitance and two electron tubes so arranged that the frequency is adjustable, depending on the amount of inductance and capacitance. The pitch of the sound can be made so high or so low that the sounds become inaudible, yet the picture of the sound wave is resolved by the cathode ray oscillograph and may be seen.

As I See It

To the ears of our staff has been brought the most drastic criticism that our paper is in need of reform. To such accusations we offer no vehement denial; rather, we encourage it. We might suggest that this friendly admonition be accompanied by a bit of friendly, or at least, constructive criticism. In other words do not attempt to demolish that which you cannot more effectively replace.

From those individuals who read this paper we invite such comment. As a vast majority of our noble student body is not sufficiently interested to read our pages, we feel sure that they can in no wise be affected by this observation. It is a noble thought to consider the possibilities of a distant date when "The Bison Stampede" will be actually read by at least one more person.

It should be common knowledge at this late date, and, if it is not, I shall try to make it such, that the Dramatics Society is sponsoring a series of one-act plays to be given in the auditorium, Friday night, March 1. The several casts are acting in competition, and although the balloting for the best production is limited to the alumni, your presence that evening is most heartily solicited. This seems to be an endeavor upon the part of the group to arouse a more lively interest in dramatics. I might suggest at this moment that tryouts for all presentations are not limited to members of the Society, but are open to the entire student body. A continual effort is being made to discover new talent which has been lying dormant.

As a means to these ends the organization has offered prizes for selling tickets to these productions. This method was carried out rather successfully in the last production, "The Queen's Husband." I am sure you must have noticed that all prize winners were members of the Society, so let me assure those individuals who seek for an ulterior motive or evidences of foul play that all was done in fairness and the spirit of equity. To prove your suspicions, if you have any, enter the contest, prove what a lay participant can do, and be in the money.

—O'Shaunessy.

"SCHOOL FOR SCANDAL" GIVEN

Sen Baiu Presents Play
By O'Donnell

The Sen Baiu society presented "The School For Scandal", a one-act satire on school life in assembly on Tuesday, February 12. Members of the cast impersonated several faculty members and students. Charles Connors was outstanding.

The play, written by Justin O'Donnell, was directed by Mr. McCrossen, faculty adviser of the Sen Baiu. The following students took part in the production: Gerald Gatti, Michael Solomon, Justin O'Donnell, Thomas Toole, James Ramsey, Francis Rudnicki, Alphonse Warakowski, William MacDonald, Charles Burns, Thomas Mayock, Victor Navikas, Charles Connors, William Conner, John Galson.

Table Tennis Team Withdraws

Because of numerous scholastic conflicts, the Junior College table tennis team withdrew from the Wyoming Valley League early in February. The college team was third when the first half of the league schedule had been completed.

Some uses for this complicated instrument are: radio set measurements, sound and circuit analysis, medical research, and frequency measurement.

A large number of persons saw this instrument in operation at the time of the Open House program last November.

The Junior College physics laboratory, which is supervised by Professor Voris B. Hall, is said to be one of the best equipped in this part of the state.

America and Alfred Stieglitz, a collective portrait. Edited by Waldo Frank, Lewis Mumford, Dorothy Norman, Paul Rosenfeld, and Harold Rugg. 339 pages. Doubleday, Doran and Co., New York, 1934.

Gertrude Stein says that Stieglitz IS. She employs a single page to say definitely, although somewhat indistinctly in her peculiar style, what twenty-four other contributors to the book hint at in the balance of some three hundred and eight pages. For all that one may say of Stieglitz is that he IS.

All agree that Stieglitz is whatever he comes into contact with. He is a man, or, more exactly, he is man; for there is not the element of supernaturalism, but rather there is represented human, earth-nurtured, expression-seeking mankind. He is the trees, the buildings, the rivers, the sunsets; his heart is the heart of the winds, alternately harsh and lulling; he is the essence of things human and, specifically, of things American.

One becomes aware of this on first entering his studio—he calls it, as do most others, "The American Place"—and be sure that none too many come into this "Place", for although he is always there courteously ushering about, talking and demonstrating, he has never listed it in a directory, for he says, "I am not a salesman. . . . If people really seek something, need a thing, they will find it." The room, bare and spotlessly immaculate, is the spirit of light; light which pervades every corner, animates every picture on the wall, and seeps into you. You seem to breathe a different air. Stieglitz would term that sensation "an American feeling."

His pictures are his interpretation of life in any of its aspects. Although modern painting is well represented there, he projects his own aestheticism by a synthetic force: the camera. Many have said that the soul of an artist cannot be adequately expressed by the click of steel, that a machine cannot embody perfected equivalents

(Continued on Page 4.)

The Forum

We all know of the political moves and counter-moves that are made on the checkerboard of B. U. J. C. Some Sophomores who have sense enough to stay out of all such machinations and the bulk of the Freshmen do not have the "inside dope" on these affairs. This is mainly because the Freshmen have not as yet reached the political hysteria stage which comes usually once in every person's school life.

I shall not try to give you the "inside dope" either; this is not an expose. But we have three groups, A, B, and C. "A" is the group which employs the method of herding satellites into class elections (and into Student Council meetings) and is dominated chiefly by one "demagogue". Its members play no important part in the school's social life and therefore have nothing to lose by restrictions on clubs. In short, it is a mob rule at the beck and call of one person's whims and caprices and having as its object political control to be used for petty vengeance.

Group "B" composes many individuals bound together in common opposition to "A" and is not in intellectual "stoogery" to any one leader. Unable completely to mobilize its independent membership in common effort, it resorts to dictatorship to keep out the democratic demagoguery.

Group "C" is not involved so much in this petty strife. But when some of its own jealousies or ambitions are to be served it will throw in its lot with whatever faction will forward its cause.

And then we come to the renegades from "B" and "C" who often desert their standards for personal gain. When the lid blows off the political pot you will find a high state of excitement among the students. The Freshmen, as I have said, take no part directly, but their representatives can usually be found in "A's" camp, passively doing his bidding.

The upshot of it all is a series of petty clashes and jealous quarrels which do much to retard the peaceful progress of the various clubs. The major part of the blame falls upon "A" but with renegades from the other two parties playing their part. One thing is certain: if there had been no group "A" with its obnoxious activities, no additional obnoxious activities would have come as retaliatory measures.

—M. J. T.

STONE OF SISYPHUS

For now I sit and meditate
On life and death, and God, and Fate;
But in a score of years or so
Not I nor anyone else will know
What I conceive—what I believe;
Each one, as I do now, will find
A faith to weave, a trust to sow.
And still I sit . . . and still thoughts
grow.

—Robert Myers.

DEAR BUCKNELL

(Farewell song of the sophomore class)
(Tune: I'm a Dreamer, Aren't We All?)

Years keep passing, Dear Bucknell,
And we leave you with a sigh;
Memories of well-spent years
Will fill our hearts with tears.
The spirit of this class so true
Will never leave the orange and blue.
Dear Bucknell, a page is turning by,
The Class of Thirty-Seven bids good-bye.

The sun is setting in the skies;
We're regretting that time flies.
Alma Mater, dear old mother,
Cries through loving eyes,
Hearts are burning at the start,
Souls are yearning as we part.
Dear Bucknell, a page is turning by,
The Class of Thirty-Seven bids good-bye.

—Victor Navikas.

Director John H. Eisenhauer was guest speaker before the Men's Bible Class of the Forty Fort M. E. Church last Sunday. Earlier in the day, Dr. Eisenhauer addressed the Sunday school group of the same church.

Social Notes

WOMEN'S TEA

The women students of the Junior College held a tea in the lounge, Thursday, February 14, honoring Miss Kathryn Hughes, whose engagement to Dr. I. L. Churchill has recently been announced.

Miss Brooks poured. Lois Devendorf and Eleanor Scureman entertained with readings. Miss Hughes, as guest of honor, received a corsage of roses and heather.

The committee in charge of the tea had as chairman, Sarah Phillips, who was assisted by Sarah Weller, Betty Jayne, Lois Devendorf, and Hilda Fletcher.

* * *

Jean MacKeeby was guest of honor at a surprise party held at her home on her birthday, January 26.

Helen Arms entertained at her home at an informal party on Sunday evening, February 3.

Irma Hewitt entertained at a luncheon and bridge at her home on Saturday, February 9. The following were present: Lois Devendorf, Hilda Fletcher, Betty Bittenbender, Sallie Hinton, Mary Huntley, Ruth Gibbons, Margaret Austin, Helen Arms, Jean MacKeeby, Beverly Jones, Eleanor Scureman, and the hostess.

Eleanor Hunter, who has taken up her second semester studies on the campus at Lewisburg, was guest of honor at a tea given by Hilda Fletcher at her home on Franklin street, on Saturday, February 2. There were 25 guests.

Duncan Thomas held a bridge party at his home on Sunday evening, February 10. The following were present: John McDonough, Hubert Hart, Robert Mayock, and Duncan Thomas.

Basketball Squad Plays Seminary

(Continued from Page 1.)

Pennington Prep defeated Bucknell in a very close game at Meyers High School gymnasium on January 26. The Jay Cees fought valiantly but lost by the score of 28 to 23.

At Williamsport, on February 1, the team was soundly trounced by the Dickinson Seminary team, 40 to 22. The Dickinson team was composed of the star players of last year's Williamsport High School team, which won the state championship. A return game with Dickinson Seminary, scheduled for February 9 at Wilkes-Barre, was cancelled because of injuries suffered by several members of the Williamsport squad in an automobile accident.

Three games were played at the G. A. R. High School gymnasium on Friday, February 8. In the first preliminary game the freshman team of the college defeated the sophomores, with Milton Charnowitz, a new man, starring for the frosh. The reserve team defeated the Stanton Eagles by one point in the second game. Robert Beach scored the goal that decided the contest. In the main contest of the evening the 'varsity easily defeated the Scranton - Keystone Junior College team, 30-24. Maslowski of Bucknell and Phillips of Scranton-Keystone were outstanding.

Last Tuesday the J. C. team played St. Thomas freshman team at Scranton. Results of this game were not available before the paper went to press. The team's record for the season so far is four games won and five lost.

Director Addresses Group

(Continued from Page 1.)

scrap book is completed at the end of the semester, it will be presented to the library. It should be an invaluable source of reference for students of American history and political science.

Officers for the second semester were elected at a meeting on Monday, February 4. James Ramsey was chosen president; Robert Renville, vice-president; and Sarah Hinton, secretary.

Any person interested in the Political Science Club or its work is invited to become a member. Enrollment in a course in political science or American history is not a requisite to membership.

Science Club Members View Partial Eclipse

On Sunday afternoon, February 3, four members of the Science Club viewed a partial eclipse of the sun at the home of Victor Navikas, president of the club. A 20 per cent eclipse was observed between 12:02 and 12:15 p. m. Had weather conditions been better, a 42 per cent eclipse would have been visible at about 11:30 a. m. This eclipse was first predicted in 1887 by the German astronomer, Theodore Ritter von Oppolzer.

Assistant Professor Gold, who offers several courses in astronomy on the campus, arranged for the group to view the eclipse through a small telescope loaned by the college. Victor Navikas was assisted by Jean Armstrong, Anthony Yodis, and Francis Rudnicki.

The Student Council recently granted the Science Club six dollars from the Contingent Fund of the Student Budget to carry on a photographic project. The plan calls for the photographing of various student leaders in club activities. These photographs may be published in local papers. Under the direction of Assistant Professor Hall, Victor Navikas, and Francis Rudnicki, the club announces that it will do any photographic work desired by students.

Twelve Candidates Report For Boxing

George Saunders, Y. M. C. A. Instructor, Will Be Coach

More than twelve candidates for the Junior College boxing team presented themselves at the Y. M. C. A. last Tuesday in answer to the first call for prospective boxers. This group will be coached by George Saunders, formerly a leading contender for the heavy-weight championship of the world and present boxing coach at the Y. M. C. A. Coach Saunders expressed satisfaction with the squad and predicted a successful season. He hopes to arrange matches with freshman teams from Pennsylvania State College, Bucknell University, and other eastern college teams.

In the only match last year the Junior College team was defeated by the Meyers High School team. The Bucknell boxers, however, were handicapped in several ways. They had very little coaching and were poorly equipped. Another drawback was the lack of convenient training quarters. The team this year will have none of these obstacles to face.

Some of the outstanding contenders for places on the team are Frank Antonelli, Michael Solomon, Eugene Gillespie, John Qualters, Francis Rudnicki, Max Edwards, Stanley Thomas, Charles Bufalino, A. Rusin, J. O'Donnell, Lazarus Weiss, Hubert Hart, and Joseph Scuntz.

of thought and feeling. Stieglitz has demonstrated decisively that the camera machine, guided by a very sensitive and deeply perceptive artist, can produce a result of unity of form in the forces of life, a manufactured "vision of life".

In the book "America and Alfred Stieglitz", which is an attempt to analyze the work and career of a man rather than a collection of tributes, we realize that the life of Stieglitz is only important when it affects his art. It is pointless, and writers are aware of it, to attempt a biography of the man, for it would be to undertake a history of art in recent years. How important his work is, it is impossible to estimate. He has decidedly changed the channel of art expression. Do not labor under the misapprehension that he subverted the old art. His was a complete schism with the conservative. He stands as the Walt Whitman of art.

The reading of at least one chapter—that one entitled "The American Place", by Dorothy Norman—is urged.

—Robert Myers.

Edwards Elected Manager

(Continued from Page 1.)

Wyoming Seminary. Dr. Irving Churchill, faculty director of debating, was one of the three judges of the debate and presented the prize of twenty-five dollars for the best speaker to Mayer Abrahamson.

About a dozen replies have been received from various eastern college debating teams. It is likely that the Junior College will arrange debates with Elizabethtown College, Penn State, Syracuse University, and Bucknell University. Arrangements are being made to send teams from the society to speak before different groups in the community.

Members of the society who have so far taken an active interest in the work being done are Robert Renville, Thomas Mayock, William Orlandi, Lorna Holbrook, Marian Wall, James Ramsey, Justin O'Donnell, Ralph Ford, Milton Charnowitz, and Maxwell Edwards. Dr. Churchill has urged the group to put forth greater effort as the active debating season is now beginning. Students seriously interested in debate work may still join the society. More frequent meetings will be held in the future.

Administration Makes Known Proposed Curriculum Changes

According to a statement issued recently by the Director, Dr. John H. Eisenhower, several important changes will be made in the Bucknell University curricula next year, some of which will affect the Junior College. The purpose of these changes is to make possible the earlier study of "tool subjects," earlier specialization, and a reduction in the number of lecture courses offered to freshmen and sophomores. "Virtually all curricula of the first two years will be modified by extending the period of time within which a student may take required courses of study," Dr. Eisenhower announced.

One of the more important innovations will be the introduction of a four-year secretarial course for the training of private secretaries. This new feature of the curriculum leading to a Bachelor of Science degree will be made by introducing both Shorthand and Typewriting as required courses. The freshman and sophomore years of this course will be the same as the corresponding years of the Commerce and Finance Course, except that in the sophomore year Stenography and Typing will be substituted for Economics 103 the first semester and for Fine Arts the second semester. Stenography and Typing will probably not be offered in the Junior College but may be taken in the junior and senior years on the campus.

The following courses will be required at the Junior College, except that the Physical and Biological Sciences in all courses but Bachelor of Science in Biology and Engineering may be postponed to the Upper Division at Lewisburg. World Literature or English Composition, History of Western Civilization, Physical Sciences, Social Institutions or Psychology will be required in the Bachelor of Arts curriculum. In the Bachelor of Science course in Education, English Composition, History of Western Civilization, Physical Sciences, and Biological Sciences will be required. The required courses in the Bachelor of Science course in Biology will be Biology, English Composition, History of Western Civilization, World Literature, Social Institutions or Psychology. The Bachelor of Science course in Commerce and Finance will require English Composition, Physical Sciences, Economics 106, and Fine Arts. Curricula in Economics 116, Biological Sciences, Economics 110, Mathematics 116, World Literature, Economics 105, Economics 103, Economics 106, and Fine Arts. Curricula in engineering courses will remain substantially the same as they are at present.

LYONS TEACHES JOURNALISM

177 High School Students In Course

The course in journalism offered by Bucknell University Junior College with the cooperation of Mr. Gerald Lyons, assistant managing editor of the Wilkes-Barre Record, has attracted many high school students for whom the course was especially planned. Invitations were sent out by the director of the Junior College to the high school principals within a radius of thirty miles from Wilkes-Barre.

The first meeting of the course was held February 6 with 152 students and adults present. Mr. Lyons outlined the course in a general way. At the next meeting 25 additional students enrolled.

Dr. Lewis E. Theiss, professor of journalism on the campus, will also participate in the course, offering instruction in the writing of books and magazine articles.

SOCIETY DANCE DRAWS MANY

Keating's Band Furnishes Music For 100 Couples

More than one hundred couples attended the Sen Baiu dance held last Friday in the college auditorium. Ray Keating's orchestra furnished the music. General chairman of the affair was Leon Kolanowski.

Under the supervision of Francis Rudnicki, the decorating scheme was carried out in the school colors and red hearts. The lights were dimmed with orange and blue.

Edward Hartmann was ticket manager. Mr. and Mrs. Godcharles, Mr. and Mrs. McCrossen, and Miss Brooks acted as chaperones.

Tennis Team Arranges Schedule

Prospects for a varied tennis season for the varsity Junior College team were increased recently with the scheduling of two prominent college freshman teams from the University of Pennsylvania and from Colgate University. The former match will be played in Philadelphia on Saturday, April 20, while the latter will be played at Hamilton, New York, Saturday May 4. Matches may also be arranged with Bucknell University, Dickinson Seminary, St. Thomas College, Scranton-Keystone Junior College, and Wyoming Seminary. If there is a sufficient demand, there will be organized in the college also a junior varsity team which will schedule high school teams in different sections of the valley.

Davidson Wins Honors At Columbia

Reports from Columbia University indicate that Alfred J. Davidson, a freshman at Bucknell University Junior College last year, who transferred to Columbia for his sophomore studies, has made a sufficiently high average in his courses to qualify for the Dean's List. Only those students who stand high scholastically are eligible for this honor list. Mr. Davidson finished among the first ten students in his freshman year here.

This news is particularly pleasing to the administration since it is clear evidence that the calibre of the work done at Bucknell University Junior College is on a par with that of any collegiate institution.

English Students To Enter Contest

Advanced Exposition Class Will Compete For Essay Prize

Junior College students who are enrolled in the Advanced Exposition course are preparing to enter "The Atlantic Monthly" essay contest. To be eligible for entrance the contestants must subscribe to "The Atlantic Monthly" during the 1934-1935 term. The rules of the contest demand that the entry be accompanied by a statement that the essay submitted is original, and that it has never before been published nor submitted for publication. The instructor must endorse each essay that is entered in the contest.

Mr. Donald Stillman, instructor in the Advanced Exposition course in the Junior College, will criticize the final essays submitted by our students. Entries must reach "The Atlantic Monthly" office on or before April 8, 1935.

The winner of the first prize will receive fifty dollars in cash and a scholarship to the Bread Loaf School of English at Middlebury College in Vermont. This scholarship is valued at one hundred and twenty-five dollars. The second and third prizes are twenty-five dollars and ten dollars in cash, respectively.

Mr. Stillman feels certain that this contest will be of value in stimulating interest in the new course.

Mathematics Club Will Meet

Election of second semester officers will be held during the meeting of the Mathematics Club tomorrow evening, in Room 314. Anthony Yodis will deliver a talk on "Projective Geometry". All members are requested to attend. Refreshments will be served.

Bucknell University

At Wilkes-Barre, Penna.

The Bucknell University Junior College at Wilkes-Barre is a branch of Bucknell University. The admission requirements at the Junior College are the same as the admission requirements at Lewisburg. Credits earned at the Junior College are Bucknell University credits; they will be accepted wherever Bucknell University is recognized.

Bucknell University has widened its campus to include the Wyoming Valley. Two full years of college work may be taken at the Junior College. The courses offered to freshmen and sophomores at Lewisburg are duplicated at Wilkes-Barre. The University has equipped expensive, modern laboratories at the Junior College in order that satisfactory courses in science may be given. No other institution offers such facilities in Wilkes-Barre. The Junior College is rapidly building up a library of its own under the direction of a professionally trained librarian.

Bucknell University also offers a wide variety of late afternoon and evening courses at the Junior College Building in Wilkes-Barre. Such courses are offered for both graduate and undergraduate credit.

The Bucknell University Junior College has an exceptional faculty. Every member of the staff has had graduate training; several have received doctors' degrees from the leading universities of America. The faculty includes men who have come from the graduate schools of Harvard, Yale, Columbia, Chicago, Cornell, Stanford, Duke, Virginia, and Michigan.

For further information, consult the Registrar, George R. Faint, 29 W. Northampton Street, Wilkes-Barre, Penna. (Telephone W-B 2-6330.)

A catalogue or special bulletins will be mailed upon application to the Registrar.
