Bucknell Program On Nation-Wide Broadcast

Columbia System Extends Radio Facilities To University

On Saturday evening, March 16, Bucknell University will go on the air in a program to be transmitted by the Columbia Broadcasting System over its nation-wide network. The occasion of the broadcast is the celebration of "Bucknell Night".

The annual meetings of fifty-four Bucknell alumni clubs throughout the country will be held on that date. The three thousand members of these clubs listen to this radio program, to be broadcast from Lewisburg, as a part of their dinner meetings. As a part of each individual club meeting there will be a presentation of important plans for the centennial program of the University which event will be celebrated in 1946.

Bucknell night will begin promptly at six o'clock on the evening of March 16. The radio program which will begin at this time and continue for a half hour is made possible by the co-operation of Julius Seebach, director of program operations for the Columbia Broadcasting System.

The entire program is under the direction of the new promotional committee of Bucknell composed of Professor Arthur L. Brandon, chairman, Professor Paul Gies and Professor Melvin LeMon. The broadcast will feature the Bucknell Symphony Orchestra, the University Mixed Chorus and the University Glee Club. The numbers selected for the program together with a list of stations which will carry the broadcast will be announced by the Columbia system previous to the date of broadcast. Two engineers from the Columbia network will make a survey of the university buildings for the purpose of selecting a room in which the program will originate and of installing equipment.

The Wyoming Valley alumni of Bucknell University and friends will hold their dinner meeting at the Westmoreland club at 5:45 p. m. Following the half hour broadcast dinner will be served, after which a program of musical numbers and brief addresses by the local alumni will be given.

Attorney James P. Harris of Kingston, the chairman of the program committee, is being assisted by Dr. Charles Roush, president of Luzerne County Alumni Association of Bucknell University, and by Rev. William Curnow of Shickshinny, secretary of the association.

College Clubs Arrange Science Demonstration

The Science Club, the Engineering Club, and the Mathematics Club are arranging a program of demonstrations and lectures to be given before science students of local high schools at the Junior College on March 22 and 23. One meeting will be held on Friday, March 22 and two on Saturday, March 23. Lectures will be given by members of the college faculty. Assistant Professor Schuyler will speak on "Cosmetic Chemistry"; Roy C. Tasker, assistant professor of biology, will talk on "Evolution"; and Professor Hall, assistant professor of physics, will give a demonstration with the optical bench.

Student chairmen of committees making arrangements are Albert Rohlf, Anthony Yodis, and Victor Navikas. The faculty committee is composed of assistant professors Hall, Tasker, and Schuyler.

Dr. John H. Eisenhower, director of the Junior College, will donate refreshments.

"Stampede" Adviser To Speak

On Monday, March 11, Dr. J. Orin Oliphant will address the Susquehanna chapter of the American Association of University Women at Wilkes-Barre. Dr. Oliphant's subject will be "Present-day Journalism."

PRESIDENT'S STATEMENT

The "Bucknell Night" program on March 16th will be a significant date in Bucknell history. In 1946 Bucknell will celebrate its one hundredth birthday. The University is making long-time plans for this centennial program. Fifty-four alumni clubs throughout the country will be holding annual meetings on this night, and at these meetings will be presented some of these plans.

For the last four years the University has been making a thorough and comprehensive study of its program, and, as a result of this study, has revised its entire program and organization in order to meet more adequately and more effectively the needs of contemporary society. The objective of its centennial program is to build up the endowment and material equipment which are needed for the realization of its goals.

Homer P. Rainey,
President.

Faculty Wins First Place In Contest

"Spreading The News" Is Voted Best Production; Sophs Second

Before an audience of 200 people the faculty of Bucknell University Junior College staged "Spreading the News" to win first place in the one-act play contest sponsored by the Dramatics Society last Friday evening. The contest, judged by the Bucknell alumni, was very close, with the sophomores taking second place. The sophomore production, "A Dispatch Goes Home," was directed by Jean MacKeeby. The freshman play, "So's Your Old Antique", directed by Mary Huntley, received much favorable comment.

The cast of the prize-winning production, directed by Mrs. Donald Stillman, included Miss Kathryn Hughes, Dr. John H. Eisenhower, Mr. John Gold, Mr. Charles Godcharles, Dr. Irving Churchill, Mrs. J. Orin Oliphant, Mr. Donald Stillman, Mr. Vincent McCrossen, Dr. Roy C. Tasker, and Miss Majel Brooks.

The sophomore cast included Edson Shannon, Edward Hartmann, Lorna Holbrook, and Jack O'Donnell.

Mary Huntley directed the following cast: James Ramsey, Anne Hirko, Lois Devendorf, Robert Mayock, and John Malkames.

Besides those who appeared on the stage, the following people helped with the productions: Jack Hurley, Helen Arms, James Mollahan, Duncan Thomas, Robert Beach, Ruth Gibbons, Eleanor Tasker, Agnes Wolfe, Daniel J. Gage, Francis Rudnicki, Robert Renville, Joseph Scuntz, Victor Navikas, Vincent Loftus, Frank Alexander, Cyril Freed, Frances Fleming, Charles Burns, Dora Ellen.

Nicholas Lorusso entertained between the plays with violin solos. He was accompanied on the piano by Mr. Vincent Lupien.

Engineers' Courses To Be Re-organized

College Survey Course Will Be Supplanted By Electives

The general trend toward the postponement of required survey courses to the Upper Division has been responsible for decided changes in the engineering curricula for next year. The survey courses in English and history will give way to courses of the students' own selection, totaling the same number of semester hours.

In the freshman year chemical engineers will take five hours of chemistry instead of the present four and a two hour elective in place of History 99 or History 100 (History of Western Man), the total number of semester hours remaining the same. Civil, electrical, and mechanical engineers have the choice of either History 99 or 100 or any three hour elective, their course in chemistry being a four hour one as at present. In all branches of engineering, English 103 and 104 (World Literature) are no longer required. All engineers will, however, take English 101, a course in composition, the first semester and English 102 the second semester. Especially capable students may, if they choose, elect English 201 and 202, which are courses in advanced exposition.

Sophomore engineers will no longer be required to take Sociology 100, the course in Modern Social Institutions, and may take a three hour elective in its stead. In the second semester of the sophomore year Economics 103 will be required.

Economics Club Plans Field Trip and Luncheons

The Economics Club of Bucknell University Junior College will make its first field trip at 2:30 P. M. this afternoon to the Wilkes-Barre Lace Manufacturing Company. The club will travel in cars provided by club members.

At the luncheon meeting on Monday, March 18, Mr. Roland Grover, assistant cashier of the Miners Bank, will speak on certain phases of banking. This luncheon will be the fourth of the year.

The Economics Club is planning an important meeting for March 27 when Ralph Barsodi, well-known author and lecturer on economic subjects, will address the group.

Salsburg Appears In Play

Bucknell University Junior College was represented in the recent Little Theatre production of Elizabeth McCadden's "Double Door" by Joseph Salsburg, who had the role of William, a footman. Mr. Salsburg, a member of the sophomore class, has been active in dramatics at the Junior College for the past two years. In his freshman year he portrayed one of the leading roles in the Bucknell Players' production of "The Trial of Mary Dugan." This was his first appearance with the Little Theatre group.

Director Addresses Local Groups

On February 26 Dr. John H. Eisenhower addressed the Unemployed League at Larksville on "State Control of Education." The meeting was sponsored by the Wyoming Valley Play-ground and Recreational Association. The director also spoke at Plymouth High School on March 6 on "Guidance."

Science Club Plans Programs

Professor William Schuyler will address the Science Club this evening on "Synthetic Chemistry." Movies demonstrating commercial uses of chemistry will also be shown. The club is planning to visit the Hazard Wire Rope Company where it will observe the operations of this modern industrial plant.

ALUMNI WILL RALLY AT CLUB FOR BROADCAST

Dinner And Program To Follow; Harris To Be Chairman

Wyoming Valley alumni of Bucknell University and their friends will gather at the Westmoreland Club, Wilkes-Barre, on Saturday evening, March 16, to listen to a nation-wide broadcast of a special program from the university campus in Lewisburg. The program, which will start at six and continue until six-thirty, will be sent out over the Columbia Broadcasting System. All over the nation alumni groups will assemble at this time to celebrate "Bucknell Night."

Local alumni are requested to meet at the Westmoreland Club at 5:45. Following the broadcast, a dinner will be served, after which a special program consisting of musical numbers and brief addresses by alumni will be given.

Attorney James P. Harris of Kingston is general chairman of the committee on arrangements. He will be assisted by Dr. Charles S. Roush, pastor of the First Baptist Church, Wilkes-Barre, and by William Curnow of Shickshinny. Dr. Roush is president and Mr. Curnow is secretary of the Luzerne County Alumni Association of Bucknell University.

Numbers selected for the broadcast, together with a list of the stations over which the program will be heard, will be announced shortly by the Columbia System, which will send two engineers to Lewisburg to select the room for the broadcast and make the necessary installations.

Professor Paul Gies, director of the Wilkes-Barre Symphony Orchestra, is expected to appear on the program.

Baseball And Tennis Planned For Spring

Inter-Scholastic and Intra-Mural Matches Are Contemplated

Baseball and tennis will be the two major sports on the spring athletic program of Bucknell University College, according to an announcement by Assistant Professor John S. Gold, faculty director of athletics. Both the men and women of the college will organize baseball teams.

The small amount of money left in the athletic fund of the student budget will make necessary a curtailed baseball schedule. Games will be played with local high school teams. Trips may be made to Scranton to play the St. Thomas College freshmen and the Scranton - Keystone Junior College teams. The freshman team of Bucknell University may be played at Lewisburg. The season will be opened with a game between the freshmen and the sophomores.

The women's baseball team will play local high schools. Kirby Park will be used for practice and for games.

The tennis team is arranging a full schedule of games with college teams. Two former Wyoming Valley tennis champions will be on the team. J. P. Lord, manager of the team, has arranged a tentative schedule, including games with the University of Pennsylvania freshman team, the Colgate University freshmen, and two matches with St. Thomas College varsity. Mr. John Gittens is faculty adviser and coach. A junior varsity team may be organized to play high school teams of the Wyoming Valley.

CIRCULATION MANAGER

Edward Hartmann

On Spirit

We can no longer say that this institution lacks spirit. Contrary evidence has flung the denial in our faces. What had been lying dormant and unmolested so long burst forth in primitive roar when a representative group from Bucknell watched our boys more than hold their own against Seminary. What if we did lose by two points. Ours was a more glorious victory. We have proved to ourselves and to each other that we are potentially co-operative. We have shown our sincere interest, and have enjoyed two good games. Let such an example be our standard and habit. Tomorrow night we play "Sem" in a return engagement. Are you willing? Okay, it's a date!

An Appeal

Those fortunate persons who have found a real interest in dramatics know that there are phases that are just as intriguing and interesting as the acting. The makeup work in big-time dramatic productions is often done by artists who spend their lives perfecting their technique. The work of the stage manager is well-defined and is, for the expert, a full-time job. The business manager of theatre groups and acting associations is one of the most important members of the organization. The business or production manager's duties call for a real skill which is developed by the challenge that each new production presents.

Perhaps these lines of dramatic activity do not bring a great deal of fame and glory to the workers behind the scenes, but they make or break a presentation as surely as does the leading lady.

This year the Junior College is fortunate in having a few persons who can take the responsibility for such tasks as are mentioned above. Frances Rudnicki has been doing splendid work in makeup. Victor Navikas has been faithful to the thankless tasks of stage manager. Cyril Freed has been responsible for the business end of our dramatics productions.

But the future looks black. This is an earnest appeal to those freshmen who may be genuinely interested in dramatics to associate themselves with the persons already at work in these lines so that next year the Junior College dramatics organization may be able to rely on interested and experienced workers.

This year too, the society needs the co-operation that interested workers can give. Thus far the productions have been put on under the decided handicap of limited facilities. We have neither scenery nor stage properties. Victor Navikas, however, is planning to do his part in surmounting the difficulties in order to make the next play a success. He has volunteered to build a set that can be used not only this year but also for future productions. This is not a one-man job: it will take time and effort—but it is a worthy cause. The stage manager and the executive committee of the Dramatics Society urge any one who can be of any assistance to lend a hand for the sake of his own satisfaction and for whatever sentiment he may feel about the honor and glory of the organization and the school.

—Eleanor Scureman
Pres. Dramatics Society.

The Forum

On Debating

A group of outspoken youngsters with a moderate degree of forensic ability have undertaken to uphold the honor of Bucknell University Junior College in inter-collegiate debates. Handicapped by a late beginning and certain re-organization difficulties, these boys will have no small task in striving to make a creditable showing for the "Orange and the Blue." They have promised to prove their "do or die" spirit, providing they receive a minimum amount of interest and support from the student body.

By this time it has been fairly well ascertained that our students can not be called "raving basketball fans" or even "tireless followers of our Thespians." We have concluded that their true interest has a more intellectual tendency. Since they have not allowed themselves to be classified definitely in either of these realms of fandom, we feel sure that these prospective orators will be able to capture their elusive interest.

Perhaps in every one of these debating encounters you will not be guaranteed a performance which would surpass one of the Lincoln-Douglas or Webster-Hayne series. But it is certain that our boys cannot be intimidated. They intend to finish the season in much the same manner.

A sizeable Junior College group attended the Bucknell University-Bucknell University Junior College contest at Concordia Hall. From all reports these students were well entertained and quite pleased with the showing of our team. Let us show our interest by following the activities of this club during the remainder of the season.

Demosthenes, Jr.

College Girls, Attention

Charm, by Margery Wilson. 113 pages. Frederick A. Stokes Co., 1928.

Ye who judge sophistication to be a primary element in your character hearken to the words of one who would advise you on the method of obtaining it. Hear what one who, not long ago, was of your number has to say concerning the true charm of female or male.

Charm is defined in Webster as "that which exerts an irresistible power to attract." Synonyms are: enchantment, spell, fascination, attraction, magic. Each word is a romantic one, suggesting something mysterious; yet not one of all these lovely words says anything definitely. If we are to determine what charm is, we must study it in action. Let us observe its functioning in this modern world.

Let two young men, brought up in the same environment exposed to the same contacts with the world, having had the same parents, in every way given equal advantages, apply for the same job. How will the prospective employer choose between them? Almost certainly it will be a choice based on the fact that one smiles more delightfully, or seems more willing to listen, looks sincerely into the employer's eyes—a thousand little things might be decisive. Whatever the deciding factor is, all reverts to the fact that one possesses more charm than the other.

How is it, girls, that the less beautiful of two girls very often is victorious in a love triangle? Haven't you sometimes wondered why the boys took Mamie Glutz to the dance while you, and many other girls like you, staggled it to the movies. It isn't because boys don't appreciate beauty! Actually, however, it would seem that another quality is more essential—Charm.

By analyzing these two examples, we now may reach a kind of definition. Charm possesses qualities of abstractness and omnipresence which, when utilized, assist one in the pursuit of the "summum bonum." We may say that it is simply an attitude of mind expressing itself in every detail of life. It is a tool and a weapon with which to build and defend happiness and success.

"But," you say, "isn't this charm something that one either has or hasn't?"

Absolutely not! Charm is an innate quality in every person which

As I See It

Well, the faculty took first prize for "Spreading the News". To them I offer these rather belated congratulations. But ere I proceed further, let me make a notable pause, and most sincerely commend Misses MacKeeby and Huntley. I heartily recommend a gallant "Hats Off!" to these ladies.

With all due regard for the Sen Baiu Society it can be truthfully said that they enjoyed their trip to the Stegmaier Brewery immensely, and quitted that place in the best of spirits.

Tomorrow night we play "Sem". Two weeks ago our boys gave the West Siders some ticklish moments and due cause for apprehension. It was anybody's game until the last minute when "Sem" came through with a final goal. What if we did lose by two points?

'Twas not a solo performance, for the boys were accompanied by a cheering chorus of enthusiastic Bucknellians led by that impromptu impressario "Chuck" Connors. Tomorrow night they'll give their best—and then some. What say, Gang? The same crowd and a lot more! In the balance of the bleachers, let not our side be found wanting.

I knew that debating contributed to one's ability to express one's self, but I never dreamed that it could assume such voluble proportions.

From Shakespeare's "Tempest" is the following quotation: "Look down, you gods, And on this couple drop a blessed crown." Perhaps this alone can jar them from themselves.

"The Bison Stampede" is ever searching for potential journalists. I feel sure that those individuals who so lavishly and indiscriminately adorn the walls of the "Gentlemen's" lavatory are victims of perverted genius. If they would only divert their poetical and literary talents into more profitable channels, I am certain that the standards of creative "originality" of this institution would be most perceptibly higher.

Love, like a game of chance, is played for a stake, but, easily won hands are discarded for a new deal.

—O'Shaunessy.

Professor Hall Attends Convention

Voris B. Hall, assistant professor of physics at the Junior College, attended the joint convention of the American Physical Society and the Optical Society of America on February 22 and 23. The convention was held at Columbia University in New York City.

merely requires attention, just like a plant, to blossom forth in full glory. A thief or a murderer may possess charm! Upright living merely assists the nurturing of it. The pleasant thing about all this is that the process of acquiring charm is simple and natural.

First, be interested. Nothing is so complimentary to a person as to know that his listeners are interested. If you will concentrate on displaying an intelligent attitude of occupation with the words of another, you will find yourself considered interesting for being interested.

Second, be kind. Kindness is the fundamental basis for good manners. If you are in doubt, wondering whether you should leave your spoon in the cup or remove it to the saucer, think what would be the kind thing to your neighbor at the table, and the convenient thing for you. If you should leave it in the cup, you would run the risk of having the end of a spoon in your eye. If you leave it in the cup, you must watch every move of your hand, lest it accidentally hit the spoon and send it flying through the air with hot coffee, to land on some lady's evening gown. Kindness is best, accomplished by studying the other person's view-point. There are many more technical practices which will assist one to the objective. Physical charm, conversational charm, individuality, poise, all are important; but, in the main, if one will practice these two things—interest and kindness—charm will thrive in the fertile garden of one's personality.

—Robert L. Myers.

The Land Of My Desire

If I but once could go
to the land of my desire; I
would go to a land of food
and wine and many a
lady's bower. I would go
to a land of hills and dales
with dark green pools in
the shadows. I would go to
a land of starlit paths—to
the land of my desire.

I would build for myself
on the side of a hill a cot
made from petals of roses.
And there I would dwell 'til
heaven and hell and all the
celestial bodies would form
in array and take me away
from the land of my desire.

—Emmet M. Molloy.

Madonna

In the twilight of the evening
When the world in slumber's sleeping
When the shadows round me deepen
As if some supernatural Being
Holds the world in His dominion,
Dream I then with Morpheus,
Dream I then of my Madonna.

Dream I oft' of joys I knew:
Always of the love that grew;
Of the skies that once were blue;
Of my beautiful Madonna.

As in my chamber I was sitting
Heard I on my doorstep singing
In a voice of sweet citation
In a voice of modulation
Came the voice of my Madonna.

Up I sprang in consternation
To her song of adoration
But to find that I was dreaming,
Dreaming of my lost Madonna.

—Emmet M. Molloy.

Only have enough of little virtues
and common fidelities, and you need
not mourn because you are neither a
hero nor a saint.

—Henry Ward Beecher.

Every good act is charity; a man's
true wealth is the good he does in this
world.

—Mahomet

So long as we love we serve; so long
as we are loved I would almost say
that we are indispensable; and no man
is useless while he has a friend.

—Robert Louis Stevenson

The making of friends, who are real
friends, is the best token we have of a
man's success in life.

—Edward Everett Hale

Explanations are unnecessary; your
friends don't need them, and your ene-
mies won't believe you anyway.

Engineers To Hear Campus Profs.

The Engineering Club has invited two faculty members from the campus to address future meetings of engineering students. George A. Irland, assistant professor of electrical engineering, will speak on television at the next meeting of the club. At a later meeting Robert C. Kintner, assistant professor of chemical engineering, will talk on "Metallurgy and Metallography."

The engineering group is planning a trip to the Harding Power Plant in the near future.

League of Nations Planned

Plans are now underway for a model League of Nations to be held at Bucknell University Junior College sometime late in March. The event will be strictly intra-mural. Students in the History of Western Man course will take part. Mr. Daniel J. Gage will take charge of the organization. He will be assisted by Dr. J. Orin Oliphant.

Faculty Will Judge Debates

Several members of the Bucknell University Junior College faculty will act as judges at a series of debates arranged by Forty Fort High School during March and April. At a debate last evening between Forty Fort and Kingston High Schools, Dr. Wilfrid H. Crook and Mr. Daniel J. Gage were judges. Tomorrow Mr. Faint and Mr. Keller will serve as judges of a debate between Forty Fort and West Hazleton High Schools. Dr. Eisenhower Dr. Churchill, Mr. Godcharles, and Miss Hughes have also been requested to judge debates to be held within the next two weeks.

Boxing Dropped From Program

Efforts to organize a boxing team at Bucknell University Junior College this year have been discontinued, according to an announcement made recently by Joseph Scuntz, who has taken an active interest in organizing a team. Unforeseen difficulties make it unwise to continue present plans for this season. The administration has announced that boxing will be a regular part of the sports program for next year if sufficient student interest is shown in this sport.

Women Plan Assembly Program

Under the direction of Jean Armstrong and Dora Ellen, Beta Gamma Chi, the Women's organization, is arranging a special program for assembly next Tuesday. The nature of the program is being kept secret.

The assembly program last Tuesday was in charge of Thomas Kniff, a member of the freshman class. Warden William B. Healey and Mr. Thomas Atherton were speakers at recent assemblies.

Mathematics Club Meets

At the meeting of the Mathematics Club tomorrow evening Anthony Yodis will speak on "Synthetic Projective Geometry."

Albert Rohlf's was re-elected president of the club at a recent meeting. Donald Roselle was elected vice-president and William Beiswinger, secretary-treasurer.

Miss Brooks At Dean's Convention

Dean Majel K. Brooks attended the convention of the National Association of Deans of Women at Atlantic City on February 20, 21, 22, and 23. Mrs. Franklin D. Roosevelt and Mrs. Charles A. Beard were prominent speakers on the program.

Women Honor Mrs. Stillman

Mrs. Donald Stillman will be guest of honor at a tea for faculty wives to be given next Thursday afternoon by the women students.

Frances Fleming is chairman of the committee in charge of the affair. She is assisted by Agnes Wolfe, Rachel Rosser, and Hilda Fletcher.

Girls' Team Loses

The Junior College girls' basketball team was defeated on Wednesday, February 27, at the Y. W. C. A. gymnasium by the Ashley High School team. The score was 19-13.

On Friday, March 1, the Bucknell team was again defeated by the Kingston High School girls' team 27-10.

Basketball Team Has Good Season

Six Games Won and Seven Lost During Year's Play

The second season of basketball at Bucknell University Junior College has been successful from many angles. Playing a most difficult schedule, the Varsity team has made an excellent record, winning six out of 13 games played to date. Members of the Varsity are Captain Leon Kolanowsky, John Swengel, Vincent Maslowski, Scott Mills, Harry Tucker, Vincent Loftus, Andrew Giermak, Joseph Gurnari, Duncan Thomas, and Stanley Thomas. Coach Henry Peters deserves credit for the formidable combinations he put on the floor in every game.

The Junior College team twice defeated the McCann School of Business and the Scranton-Keystone Junior College quintets. Single games were won from the freshman teams of Bucknell University and St. Thomas College. The team, lost to the Villanova College freshmen, the Temple University frosh, the Colgate University freshmen, and to teams representing Pennington Prep., Dickinson Seminary, Wyoming Seminary, and the Hun School.

The year's results, not including the Wyoming Seminary game to be played tomorrow evening, are as follows:

- Bucknell University Junior College, 9; McCann School of Business, 25.
- Junior College, 47; Scranton-Keystone Junior College, 22.
- Junior College, 32; McCann School of Business, 24.
- Junior College, 22; Villanova College Freshmen, 33.
- Junior College, 26; Temple University Freshmen, 40.
- Junior College, 22; Colgate University Freshmen, 39.
- Junior College, 23; Pennington Prep., 28.
- Junior College, 14; Dickinson Seminary, 49.
- Junior College, 28; Scranton-Keystone Junior College, 20.
- Junior College, 29; Bucknell Univer-

Bucknell Night

Saturday night, March 16th, will be Bucknell Night throughout the country. The Columbia Broadcasting Company will broadcast a thirty minute program from 6 to 6:30 p. m., directly from the Bucknell Campus at Lewisburg. This program will feature the Bucknell Symphony Orchestra, the University Mixed Chorus, and the University Glee Club. Fifty-four Bucknell Alumni clubs throughout the country will hold annual meetings on this night. The Wilkes-Barre Alumni will hold their meeting at the Westmoreland Club, and will have as honor guests the local members of the board of trustees of the University. At these meetings important plans will be presented for the Centennial Program of the University. The University will celebrate its hundredth birthday in 1946.

- sity Freshmen, 21.
- Junior College, 31; St. Thomas College Freshmen, 25.
- Junior College, 38; Wyoming Seminary, 40.
- Junior College, 25; Hun School, 35.

Thousand Volumes In College Library

Librarian's Report Lists Many Purchases, Gifts and Loans

The library of Bucknell University Junior College now owns 1173 volumes, according to the first semester report submitted by Miss Kathryn Hughes, the librarian. When school closed last June, the library owned about 300 volumes, 200 of which were catalogued. At present 900 books are catalogued. Those uncatalogued consist largely of bound magazines donated by the Wyoming Historical Society and of a 177 volume set of the "War of the Rebellion" papers, a gift from the Bucknell University library at Lewisburg. The Hoyt Library also gave several volumes, among which were a set of "Messages and Papers of the Presidents" and Scott's "Waverly Novels." Included in the number of gift volumes, which total 150, are government documents presented by Congressman C. Murray Turpin and Senator Andrew Sordani.

In addition to these books the library has acquired by loan from the Wyoming Historical Society nearly 1,000 volumes, including valuable source material in American history, census reports, and miscellaneous historical and sociological material.

There are 312 volumes in the literature collection, and 146 in the economics and sociology collection. The collection of books on philosophy and political science is fairly large, but the science library consists of only 24 volumes. Science books are being constantly added, however. The lack of science books is partially overcome by subscriptions to several magazines dealing with scientific subjects. Among these periodicals are the "American Mathematical Monthly," "Chemical and Metallurgical Engineering," "General Electric Review," "Science News Letter," and "The Telescope." The library subscribes to 13 magazines and receives almost as many more as gifts.

The total circulation for the first semester was 1848 books, of which 1092 were circulated overnight from the reserve shelves. The average number of books taken out by each student was 9.6. The average number of non-reserve books circulated per student was only 3.9.

Registrar Speaks At Banquet

At the Father and Son Banquet held in the Luzerne Avenue Baptist Church in West Pittston last Monday, Registrar George R. Faint was the principal speaker. His subject was "Like Father, Like Son."

Director Addresses Church Group

Director John H. Eisenhauer will speak before the Bible Class of the Forty Fort M. E. Church on Sunday, March 17.

BEAT SEMINARY

To An Elm Tree

No place in this world, nor in heaven,
Grows a finer thing than yon Elm.
Sturdy and staunch and majestic it
stands,

Free from the vice and decay of man,
Free to discover the secrets of night,
Free to behold Heaven's early light.

There in the early hours of morning,
My tree and I see the world yearning—
See the world yearning for reincarnation—
See the world yearning for resuppliation.

There during mid-day birds swoop to
rest

For one single moment upon yon Elm's
breast

Only again to fly in the sky—
Thankful to Him that you and I—
That you and I have been able to see
As lovely a thing as yon Elm tree.

There by my walk in the cool of the
night—
My tree and I hold communion with
God.

—Emmet Molloy.

Political Science Club Attends Council Session

In furthering its program of viewing as many local government institutions as possible, the Political Science Club attended a session of the Wilkes-Barre City Council last Tuesday, March 5, at the City Hall. This close view of a local governmental unit enabled the club members to get a much clearer picture of how city government functions. The next trip will be to the Luzerne County court house to witness the proceedings of the naturalization court. Arrangements for this visit are in the hands of Sallie Hinton and Edward Hartmann.

Material for the club scrapbook is accumulating rapidly. Many newspaper clippings have been received and are ready for inclusion in the book.

The Political Science Club is planning a banquet for the latter part of March to which it will invite the Junior College debating society and a rival college team. The dinners sponsored by this club are not private affairs for club members. Any one interested is invited to attend.

Dean Interviews Students

More than fifty students of the Junior College held conferences with Dean Romeyn H. Rivenburg during his visit here last month. Dean Rivenburg offered suggestions to those interested in transferring to Lewisburg or to other campuses next year. Thirteen students have already filed preliminary registration blanks for transfer to the campus at Lewisburg.

J. C. Debaters Will Meet Elizabethtown

Political Science Club Will Sponsor Contest On March 19.

The Junior College debaters will meet a team from Elizabethtown College on Tuesday, March 19. This debate will be sponsored by the Political Science Club. About 250 persons heard the debate between teams representing Bucknell University Junior College and Bucknell University at Concordia Hall on Sunday, February 24. The debating contest was of the Oxford type and no decision was rendered. The Eighth Ward Democratic Club sponsored the affair. Miss Catherine Toohey of the Coughlin High School faculty was chairman.

Ralph Ford and Maxwell Edwards of the Junior College upheld the affirmative side, and Eric Stewart and Theodore Gerakeres of Bucknell University the negative, of the question: "Resolved: That the Nations of the World Should Agree to Prevent the International Shipment of Arms and Munitions." The first Bucknell speaker, Eric Stewart, is the son of Dr. Norman H. Stewart, professor of zoology on the campus.

The debate was preceded by brief talks by Dr. Tom Mayock, president of the Eighth Ward Democratic Club, by Dr. Irving L. Churchill, coach of debating at the Junior College, by Attorney A. P. Coniff, and by Assistant Professor Arthur L. Brandon of Lewisburg. Each speaker emphasized the value of inter-collegiate debating and outlined the advantages which the local Junior College brought to the community.

After the contest a short performance was given by Macko, the magician. A Dutch luncheon was served.

Committee Selected At Dramatics Meeting

Last Monday evening Mrs. Marguerite Evans Carrozza, well-known reader, was guest speaker at the meeting of the Dramatics Society which was held in the women's lounge. Mrs. Carrozza's subject was "Dialects." She illustrated several types of dialects.

During the business meeting the following committee was elected to work in an executive capacity with the director on the coming production: Gerard Golden, Ruth Gibbons, and Cyril Freed.

This was the first of a series of programs which the Dramatics Society has planned for the second semester meetings.

Refreshments were served.

BEAT SEMINARY

Bucknell University

At Wilkes-Barre, Penna.

The Bucknell University Junior College at Wilkes-Barre is a branch of Bucknell University. The admission requirements at the Junior College are the same as the admission requirements at Lewisburg. Credits earned at the Junior College are Bucknell University credits; they will be accepted wherever Bucknell University is recognized.

Bucknell University has widened its campus to include the Wyoming Valley. Two full years of college work may be taken at the Junior College. The courses offered to freshmen and sophomores at Lewisburg are duplicated at Wilkes-Barre. The University has equipped expensive, modern laboratories at the Junior College in order that satisfactory courses in science may be given. No other institution offers such facilities in Wilkes-Barre. The Junior College is rapidly building up a library of its own under the direction of a professionally trained librarian.

Bucknell University also offers a wide variety of late afternoon and evening courses at the Junior College Building in Wilkes-Barre. Such courses are offered for both graduate and undergraduate credit.

The Bucknell University Junior College has an exceptional faculty. Every member of the staff has had graduate training; several have received doctors' degrees from the leading universities of America. The faculty includes men who have come from the graduate schools of Harvard, Yale, Columbia, Chicago, Cornell, Stanford, Duke, Virginia, and Michigan.

For further information, consult the Registrar, George R. Faint, 29 W. Northampton Street, Wilkes-Barre, Penna. (Telephone W-B 2-6330.)

A catalogue or special bulletins will be mailed upon application to the Registrar.

John H. Eisenhauer
Director
