Junior College To Give New Courses

Dr. Oliphant Will Teach At Lewisburg Next Semester

Because Dr. Oliphant will offer three upper-division courses in the next semester, a few changes must be made in that semester's political science courses in Wilkes-Barre. H. Eisenhauer, director of the Junior College, has announced.

Professor Gage will teach all the sections in the History of the West class, thus increasing the number of courses offered in that field. History 108, a continuation of the course taught by Professor Burgess which Dr. Oliphant is offering this semester, is in the course of modern history, to 1815, will also be offered next semester.

On Mondays and Tuesdays, Dr. Oliphant will be at the Junior College Political Science 112. This is a course in the U.S. political system. Special attention, however, will be given to the Pennsylvania system. Primarily for the purpose of fulfilling the Political Science 110 (Global Problems) will be offered by Dr. Cook. Neither of these courses will be offered the first semester.

On Wednesdays and Thursdays Professor Dr. Oliphant will offer courses in Political Science 110 and Political Science 111.

J. C. Scientists Will Observe Sun's Eclipse

On February 5, the Science Club will observe a twenty-five per cent eclipse of the sun. A small telescope, provided by Professor John S. Gold, will be erected on the roof of the Junior College to help the observers. The sun's dress will also look for sun spots that are present on the sun.

During this month, there will be several eclipses, which will offer several chances to view the sun. The first is a partial eclipse of the sun on January 5, visible in the United States. The second is a total eclipse of the moon, on January 19 and 20, visible in the United States. The third is a partial eclipse of the moon, on January 30 and 31, visible in the United States and Works of the moon. In this month is also a partial eclipse of the sun, on June 16, visible in the United States. The fifth is a total eclipse of the moon, on July 18 and 20, visible in the United States. The sixth is a partial eclipse of the moon, in August 29, visible in the United States.

The Science Club held its monthly meeting last night, at which the discussion was devoted to the discussion of photographic principles. At the beginning of the meeting, a sample of a picture was demonstrated by Victor Navitas and Francis Francis. This was a brief theoretical explanation of how a picture is produced. A discussion was then conducted on the difference between a negative and a positive. Following this demonstration, refreshments were served.

One program was presented by Victor Navitas and Francis. Another program was given by John S. Gold, who demonstrated the use of the camera and showed some of his own pictures.

Queen's Husband Ready For Wednesday Production

“Queen's Husband” is a three-act comedy that has been played with greater success than any other on Broadway. The play is set in the playhouse of “The Queen’s Husband,” by Robert E. Sherwood.

The play will appear under the direction of Mr. Sherwood. This will be the first full-length production of the year.

The scene of action is laid in a mythical kingdom on an island somewhere in the North Atlantic. The time is the present day. The kingdom is in a state of political and economic disarray. The queen, Northrup, (John Kresse), commander of the armed forces, and the king, (Hal Adams), commander of the armed forces, are in control of Parliament. The strength, but rather fraught with danger, (Kelvin Arms), dominates the scene. He is on hand, but for peculiar reasons, seems to be the only one who can come to her aid.

On her return are her former fiancé, (Theodore Strong), the king’s stepson, the king’s stepson, and the king’s stepson, who are the protectors of the queen. It is apparent that she is on hand, but for peculiar reasons, seems to be the only one who can come to her aid.

The king has a decided distaste for this man, but his sister, the queen, the queen, is in love with him. The king, however, cannot accommodate her.

The queen has her life, but for peculiar reasons, seems to be the only one who can come to her aid.

New Students May Enter Next Term

Director Eisenhauer Says A. B. Candidates Can Be Accommodated

Students who will complete their work in January may enroll at Wilkes-Barre, and be accepted at the Junior College, in accordance with the following terms:

1. Students who have completed four years of course work in the high school, and have a grade point average of 2.0 or better, may be admitted.

2. Students who have completed three years of course work in the high school, and have a grade point average of 2.0 or better, may be admitted with the approval of the director.

3. Students who have completed two years of course work in the high school, and have a grade point average of 2.0 or better, may be admitted with the approval of the director.

The following students have been accepted:

- Margaret A. Smith
- Jane E. Williams
- Elizabeth A. Johnson
- Robert A. Miller

These students will be enrolled in the next term, and will be accommodated in the following courses:

- English Composition
- American History
- World History
- Algebra
- Geometry
- Chemistry

The director has found that the faculty is prepared to accommodate the new students who have been accepted.

Political Science Club Announces Programs

The program committee of the Political Science Club has announced that the club will hold a meeting on Monday, January 11, at 7:30 p.m. in the Science Building. The guest speaker will be Dr. Charles S. Roush, professor of political science at Bucknell University.

The club will also hold a meeting on Tuesday, January 12, at 7:30 p.m. The guest speaker will be Dr. Charles S. Roush, professor of political science at Bucknell University.

The club will also hold a meeting on Wednesday, January 13, at 7:30 p.m. The guest speaker will be Dr. Charles S. Roush, professor of political science at Bucknell University.

The club will also hold a meeting on Thursday, January 14, at 7:30 p.m. The guest speaker will be Dr. Charles S. Roush, professor of political science at Bucknell University.

The club will also hold a meeting on Friday, January 15, at 7:30 p.m. The guest speaker will be Dr. Charles S. Roush, professor of political science at Bucknell University.
The Forum

We Wonder

To The Editor:

In early childhood, I have had a vast respect for the opinions of people, as I wanted what people would think if I had been an important question in the shaping of my life.

With this complex possessing me, I imagine how I would shudder and groan when I heard any colleague, any collaborator, or any authority say anything that could possibly be important in the shaping of my life.

A Gentle Reader

Infant New Years

To The Editor:

The marathon of hanging out the old year and dancing in the new, how many of us realized just how much of this year we have before us in reaching our "Infant New Years" into individual worthy of occupying these hundred and sixty-five spaces of those of us who have lived.

Regardless of our station in life or what has passed, each of us receives a gift of a "Little New Year" when we are born, and the last second of nineteen hundred and thirty-four ticked away.

Our New Years have already grown sufficiently to have assumed some personal characteristic, but their uncertainty, their immaturity, their occasional sporadism, is spoiled our past, but it is not too late to correct and prove to others that we are our own guardians and intend to develop them into something worthwhile.

Beverly Jones

Economists Club Hears Strong

Mr. Howard Strong, executive secretary of the Wisconsin-University Chamber of Commerce, spoke at the luncheon meeting of the Economists Club at the T. V. Room, on the campus, last Monday.

"The Industrial Phenomenon," this topic, will be discussed. The luncheon and field trips which the club has planned for this year will be concluded during the next week.

A New Historical Tendency

Among the most valuable of the recent additions to the library of the Junior College is L. C. Gray, "History of Agriculture in the Southern United States 1660-1860," (Washington, 1923, 2 v.), published by the Carnegie Institution of Washington. This may rightly be called a comprehensive account of American Agriculture in the Southern United States, 1660-1860, a book which, unfortunately, is not now out of print. Together, these two books give an exhausive resume of the history of agriculture in the United States before the Civil War.

Recent years have witnessed a rapid increase in the number of citizens who are interested in the history of agriculture in the United States. The preparation of the text and of the pages of the book, which has been published, has been made possible by the generosity of Mr. and Mrs. John E. Boynton, the publishers of the "Amherst Agricul
tural Journal," and by the generosity of the Agricultural Society of New York, which has provided a grant of $1000 toward the cost of publishing the book.

Agricultural History. American farmers are now making a renewed effort to study the history of agriculture in the United States. The Agricultural History Society of the United States, 1860-1860, a book which, unfortunately, is not now out of print. Together, these two books give an exhausive resume of the history of agriculture in the United States before the Civil War.

KANGAROO

(Use a word three times, etc.)

As soon as I saw him walk by, I knew he was a KANGAROO.

That man, you know sooner or later, is going to be a KANGAROO in the world of politics.

And when the time comes, I'll be the one to kick his ass.

KANGAROO

Source materials gathered from farm journals, accounts books, market reports etc., and (2) biographies of outstanding agricultural leaders. The first volume of this series, a reprint of Jared Eliot's "Essays Upon Field Husbandry in New England and Other Papers," has been published.

The Wisconsin Historical Society, in cooperation with the Wisconsin Historical Society, has published a series of volumes, "Proceedings and Collections," in which it is planned to publish the most important works on the history of Wisconsin. The first volume of this series, "Proceedings and Collections," has been published.

"The Wisconsin Historical Society and the Geographical Society of Wisconsin," a volume of proceedings and collections, is planned to publish the most important works on the history of Wisconsin. The first volume of this series, "Proceedings and Collections," has been published.

STILLMAN-MOE

Donald Gale Stillman, instructor in English in Juneau College, and Miss Bagnhill Moe of Ann Arbor and Plymouth, Michigan, were married on December 22, 1934. The ceremony was performed in the church of the Michigan League, Ann Arbor.

The bride is a supervisor of music at the Tappan School, Ann Arbor. She will remain in Ann Arbor until February 1, when she will join her husband in Wilkes-Barre.

Both Mr. Stillman and his bride are active in musical circles. Mr. Stillman studied voice and violin at Ann Arbor, and while studying for his master's degree was a member of the University Symphony and Orchestral Union of which his wife is also a member. He is a graduate of Lafayette College and is now studying for his doctorate from the University of Michigan. She is a member of Kappa Delta Rho and also a member of the national honorary educational fraternity, Kappa Phi Kappa.

Mrs. Stillman is a graduate of the University of Michigan school of music and a member of the national honorary educational society, Kappa Phi Kappa. She is affiliated with the Phi Mu Epsilon. She has taken a prominent part in musical activities at Ann Arbor as musical director of the Tappan Little Theatre production of "Flamenco and Gretel," and in developing and conducting the Tappan student chior which broadcasts from Ann Arbor over a national network twice a month.

The engagement of Miss Kathryn Hughes and Dr. Irving L. Churchill has been announced. Miss Hughes, librarian of the Junior College, comes from Muskegon, Michigan. She is a graduate of the University of Michigan, where she also took post-graduate work in library science. Dr. Churchill, assistant professor of English, came to the Junior College from the English department of Rhode Island State College. Previously he was a member of the faculties of the University of Rochester and the University of Vermont.

Dr. Churchill received the degree of Doctor of Philosophy from Yale University.

Charles Burns, Thomas Toole, Joe Duddy, Charles Conners, and James Burns attended a New Year's party at the home of Katherine Tagen.

Dora Eichorn was present at a party at the home of Mr. Spitznall during the holidays.

Agnes Wolfe spent the holiday season at her home in Fairmount Springs.

Among those present at the formal dinner dance at Iree Temple Country Club on New Year's Eve were Jean MacKeisy and Geraldine Klee.

Bill MacNeil attended the Nachaico High School dinner dance at the Sterling Hotel, Christmas night.

Eugene Gillispie spent a week end in New York City during the Christmas vacation.

Marion Peters, Joseph Garry, Mary Huntley, John Scroggie, Holme Arms, and Emily Bell attended the Assembly Ball in Plymouth on the 28th of December.

Clarence Levin, Cyril Freed, and Lester Sullum attended the Delta Phi Chi formal dance on Christmas Eve.

On December 24 Marion Peters entertained at a tea for the Sophomore Girl's Club which has been in existence for over a year. The following were present:Jean Armstrong, Jean MacKeisy, Jean Walsh, Eleanor Scureman, Helen Arms, and Rita Cava.

Jean Armstrong entertained the same group of girls on December 19, and Helen Arms entertained them on January 12.

Dr. Myers and Bob Beach of Kingston attended a New Year's Eve party at the home of Helen Terry of Kingston.

Nunna Blanco, Tom Lawler, and Ray Stephens joined the throngs of people in New York on New Year's Eve.

Four Basketball Teams
In Intramural League

Besides the regular varsity games, an intramural basketball schedule has been arranged as the result of the efforts of Charles Connors, '38. The league consists of the following four teams: the Fresh Pre-Meds; the Seni Kioku; the Kioku; a sophomore team; and the Blues, a freshman team.

The schedule calls for two games every Wednesday afternoon, from 3 to 4, in one of the Y. M. C. A. gym units until the round robin has been completed by the participating teams. At the conclusion of the round robin, there will be an exhibition game between the "varsity and an all-star team selected by faculty coins."

To arouse interest in the undertaking, an exhibition game was played prior to Christmas between the Fresh Pre-Meds and the Soph Pre-Meds, the former winning by the one-sided score of 49-5. Gurnari refereed.

Table Tennis Team Plays

Two more victories were scored by the Junior College table tennis team last month when it defeated the Plymouth Knights of Pythias, 5 to 0, on December 19; and the South Side Stars, 8 to 1, on December 17. The team, however, was not so fortunate on January 4 when it was defeated by the Y. M. C. A. team, 7-2. All these matches were played at the Y. M. C. A.

New Magazine In Library Collection

"The Telescope": Astronomical Publication, Given By Gold

A year's subscription to "The Telescope," the leading periodical of the astron-omy of astronomy, has been given to the Junior College library by Mr. John D. Gold of Boston, Massachusetts. "The Telescope" is published in England.

The brief history of this new periodi-cal was told in the column editor in the following paragraph:

"Two years ago a new publication in astronomy was proposed. It was published by Dr. J. T. Stetson at Rochester, New York, and is called "Hevel." Ohio, as a periodical covering chiefly the all articles offered above and for the first time, he changed the intent of the maga-zine to that of a general, popular, illus-trated magazine of astronomy. In June, 1934, the Bond Astronomical Club, an organization affiliated with the Harvard Observatory and composed of members who are interested in astronomy, conducted the first meeting of its kind in this area. The meeting was held at the home of Dr. E. A. Kodak Company, and an arti-cle entitled "The Astronomy of Nave-andrews's" of the Harvard Observatory.

"Queen's Husband" Ready

(Continued from Page 1)

seems to be sympathetic towards the radical leaders, Dr. Fieldman. (Amiens Fieldman and Lasky's Elson Blashin). Indeed, although the Princess Anne is in love with Granston, for diplomatic rea-sons she has been promised in marriage to Mr. Granston, (Hook Hart), the royal playboy of a neigh-boring kingdom. The queen, who strongly dislikes the match with Prince Will, will offer a clause in the marriage contract that Anne is in love with her husband and will always be loved by him and tries to settle everything in his own delightful manner.

The setting for the action, as mentioned in the synopsis are: Major Blis, played by Robert Beatty; two soldiers, played by Harvey Harrison and Nicholas Coster; and two ladies-in-waiting, played by Agnes Wolfe and Betty Bitterendsen.

Crossman Thomas is acting as exec-utive agent for all supporting commit-ties. The cast is under the direc-tion of Dr. Jocelyn and Sally Hartley. The play is directed by Ruth Gibbons, Gerold Gordon, Marion Peters, Marion Wali, Mary Huntley, and Agnes Wolfe. The lighting is under the direction of Robert Beatty. The stage setting will be arranged by Harvey Harrison and Ripple Schumaker. William Martin will direct off-stage sound effects. Ordinary members of this com-mitee are: William Beilisheim, Esen-torf, Allan, Beef, William Villicie, Vin-cent Lottom, and James Hemy.

"The Telescope" is in charge of the advertising. It is assisted by Charles Connors, Cyril Freed is producing manager. The magazine has charges of ticket sales and is assisted by Doris Ellen and Mr. Martin.

As a means of promoting ticket sales the Student Society has started a ticket sale contest. The winners of the contest will receive a prize which will be made to the five stu-dents selling the greatest number of tickets. Ten per cent of the proceeds from the sale of all tickets will be divided among the first one hundred, is to be divided among the

Women Prepare For Basketball Contests

The girls' basketball team, in prepa-rations for its second season, has been practicing for several weeks. A number of freshmen players have been added to the squad and the ad-ditional strength promises a fast team. Captain Marlie Grill, coach, recently announced the "varisty line-up." Agnes Letchworth, manager, has arranged the following tentative schedule:

- Jefferson High School, away, Feb. 3 - Wilkes-Barre Institute, home.
- Ashley High School, away, Y. C. A., home.
- Ashley High School, away, Mar. 8 - Wilkes-Barre Institute, home.

Bill Martin spent his Christmas va-cation in Atlantic City.

A bridge tea was held at the home of Margaret Callen in Wilkes-Bar. After the bridge tea the party was entertained with a buffet supper at the home of Mrs. Gilbod. Jack Hunter was a guest at a party held by Mr. Flaherty at his home in Scranton.

Alexander Curnow attended the All-College Dance in Berwick during the Christmas vacation.

Jack Malkomson was present at a bridge party held by Dr. Duran Jones on New Year's Eve.

Harry Hunter spent the Christ-mas vacation in Philadelphia.

James Halley motored to Harris-burg Tuesday to attend the inaugura-tion of Governor George Earle.

The winners according to the number of tickets each sold will be.

(Continued from Page 1)

Bucknell University

At Wilkes-Barre, Penna.

The Bucknell University Junior College at Wilkes-Barre is a branch of Bucknell University. The admission requirements at the Junior Col-lege are the same as those at the University itself. All courses offered at the Junior College are Bucknell University credits; they will be ac-cepted wherever Bucknell University is recognized.

Bucknell University has widened its campus to include the Wyoming Valley. Two full years of college work may be taken at the Junior Col-lege. The courses offered to freshmen and sophomores at Lewisburg are duplicated at Wilkes-Barre. The University has equipped expensive, modern laboratories at the Junior College in order that satisfactory courses in science may be given.

No other institution offers such facili-ties in this part of the country—the band, the faculty, the students, the laboratories, the buildings, all are duplicated at Wilkes-Barre.

Bucknell University also offers a wide variety of late afternoon and evening courses at the Junior College. Bucknell University credits are offered for both graduate and undergraduate credit.

The Bucknell University Junior College has an exceptional faculty. Every member of the staff is a graduate of Bucknell University; several have re ceived doctor's degrees from the leading universities of America. The faculty includes men who have come from the graduate schools of Har-vard, Columbia, Chicago, Cornell, Stanford, Duke, Virginia, and Michigan.

For further information, consult the Registrar, George R. Faint, 29 W. Northampton Street, Wilkes-Barre, Penna. (Telephone W-2 6350).

A catalogue or special bulletin will be mailed upon application to the Registrar.

John H. Eisenhauser

Director

Engineers Elect Staff Of Permanent Officers

At a meeting on December 13 of the Junior College Club, an election was held which resulted in the choice of the following staff of permanent officers: chief engineer, Anthony Yodis; assistant engineer, James Burrows, a recent graduate of Lehigh; the faculty directors are Professors Hall and Schuyler.

"The organisation, which consists of students' leaders, is composed of four committees: the academic, the professional, the conductive, and the financial committees, which are being discussed as part of the engineering program."

The club will hold its next meeting on Thursday, January 17, in Room 314, and once a month thereafter.

Beiselwanger Addressed Math Club

At a meeting of the Mathematics Club on January 4, William Beisel-wanger read a paper entitled "Units of Measurement." The paper described the various methods of measurement that have been employed by different races and peoples.

The next meeting of the club, to be held at 7:15 on the evening of Jan-uary 18, Donald Roselle will present the "Metrics of the Heavens and Works of Arcimedes. The program will be followed by a social hour.
