Bucknell Program On Nation-Wide Broadcast

Columbia System Extends Radio Facilities To University

On Saturday evening, March 16, Bucknell University will go up in the air in a program extending the Columbia Broadcasting System over its nation-wide network. The occasion of the "Bucknell Night".

The special meetings of fifty-four Bucknell alumni clubs throughout the country are an outgrowth of the program. The three thousand members of these clubs listen to radio programs to be broadcast from Lewisburg, as a part of their dinner meetings. As a part of each individual meeting there will be a presentation of important plans for the continuance of Bucknell University which event will be celebrated.

Bucknell night will begin promptly at six o'clock on the evening of March 16. The radio program which will start at this time and continue for a half hour is made possible by the cooperation of Julius Reesbach, director of program operations, and the Columbia Broadcasting System.

The entire program is under the direction of the executive committee of Bucknell composed of Professor F. H. Dinsmore, head of the School of Music, and President Homer J. Rainey, and Professor David W. Wiegand, chairman of the committee. Professor Paul Gies and Professor Melvin Leblon. The broadcast will feature the Bucknell Symphony Orchestra, the University Mixed Chorus and the University Oratorio Society of Bucknell University, according to a plan selected for the program together with a list of stations which will carry the broadcast will be announced by the Columbia Broadcasting System in the near future.

Two engineers from the Columbia network will make a survey of the broadcasts for the purpose of selecting a room in which the program will originate and of installing the necessary equipment.

In the Bucknell Valley Alumni of Bucknell University and friends will hold their dinner meeting at 6.30 o'clock in the Hotel Dickenson. Following the half hour broadcast dinner will be served at the Hotel Dickenson, President Homer J. Rainey, and Professor Paul Gies.

Attorneys James P. Harris of King- ston, the chairman of the program committee, and Charles Rush, president of Luzerne County Alumni Association of Bucknell Uni- versity, and by Rev. William C. Hambach, secretary of the association.

College Clubs Arrange Science Demonstration

The Science Club, the Engineering Club, and the Mathematics Club are arranging a program of demonstrations and lectures to be given before science students of local high schools at the Junior College on March 22 and 23. One meeting will be held on Friday, March 22, and one on Saturday, March 23. Lectures will be given by members of the faculty and by assistant Professor Schuyler who will speak on "Chemical Reactions"; Professor Frank, professor of biology, will talk on "Evolution"; and Professor Hall, assistant professor of chemistry, will give a demonstration with the optical bench. The members of all the making arrangements are Albert Rohrer, Albert H. Nadler, and Philip Navikas. The faculty committee is composed of assistant professors Hall, Tackett, and Burns.

Dr. John H. Eisenhauer, director of the Junior College, will donate refreshments.

"Stumped" Adviser To Speak

On Monday, March 12, Dr. J. Orin Oliphant, who is now a member of the chapter of the American Association of University Women at Wilkes- Barre, Dr. Oliphant's subject will be "Present-day Journalism."

Engineers' Courses To Be Re-organized

College Survey Course Will Be Supplemented By Electives

The general trend toward the post- graduation is the establishment of the Upper Division has been responsible for the decided changes in the engineering curricula for next year. The survey courses in English and history will give way to courses of the students' own selection, totaling the same number of semester hours.

In the freshman year chemical engineers will take five hours of English, instead of the present four and a half hour elective in place of History 39 or History 109. History 39 or 109, or any three hour elective, their courses will be given in any four hour ones at present. In all branches of engineering, English 109 and 119 (World Liter- ature) are no longer required. All engineers will, however, take English 109, in composition, and History 109 in the second semester. Especially capable students may, if they choose, elect English 201 and Literature 109, which are not credit in advanced preparation.

Sophomore engineers will no longer be required to take Sociology 109, the course in Modern Social Institutions, make a three hour elective in its stead. In the second semester of the sophomore year Economics 119 will be required.

Economics Club Plans Field Trip and Luncheon

The Economics Club of Bucknell University Junior College will make its annual field trip to 2:30 p.m. on March 23, the day after the Wilkes-Barre Lunch, to the Insurance Company. The bus will travel in cars provided by club members.

At the luncheon meeting on Monday, March 15, Mr. Roland Grover, assistant manager of the Bankers-Traders Exchange, will speak on certain phases of banking, and Mr. John H. Eisenhauer will be the meeting's speaker. The purpose of the meeting is to plan a trip for the members of the Economics Club.

Salsburg Appears in Play

Bucknell University Junior College was represented in the recent Little Theatre production of Elizabeth McPadden's "Double Door" by Joseph Salsburg, who had the role of a foreman. Mr. Salsburg, a member of the senior class, has been active in dramatics at the Junior College for the past two years. In his freshman year he portrayed one of the leading roles in the Bucknell Players' produc- tion of "The Trial of Mary Salsburg. This was his first appearance with the Little Theatre group.

Director Addresses Local Groups

On February 24 Mr. T. E. C. Bowerman addressed the Employer's Luncheon at the State Hotel on "State University and Education." The meeting was spon- sored by the Pennsylvania State Recreation and Educational Association. The director also spoke at Plymouth High School on March 6 on "The College in Relation to the Community."

Science Club Plans Programs

Professor William Schuyler will open the Science Club's season by an evening on "Synthetic Chemistry." Movies demonstrating commercial uses of chem- ical products will also be shown. The club is planning to visit the Hazard Wire Rope Company where it will observe the operations of this modern industrial plant.

Bucknell Pioneers at WBC

ALUMNI WILL
RALLY AT CLUB
FOR BROADCAST

Dinner And Program To Follow; Harris To Be Chairman

Wyoming Valley alumni of Bucknell University and their friends will gather at the Westmoreland Club, Wilkes- Barre, on Saturday evening, March 16, for a special program from the university campus in Lewisburg. The program, which will start at six-thirty, will be presented over the Columbia Broadcasting System as a part of the national alumni program. The club will be at this time to celebrate "Bucknell Night."

Local residents are requested to meet at the Westmoreland Club at 6:45, following the regular meeting of the Alumni Club of Bucknell University, and will send two engineers to Lewisburg to assist in the broadcast and make the necessary arrangements.

Professor Paul Gies, director of the Wilkes-Barre Symphony Orchestra, is expected to appear on the program.

Baseball And Tennis Planned For Spring

Inter-Scholastic and Intra- Mural Matches Are Contemplated

Baseball and tennis will be two of the major sports on the spring athletic program of Bucknell University College, according to an announcement by Assistant Professor John S. Gold, faculty director of athletics. Both the men and women of the college will be offered.

The small amount of money left in the athletic fund of the student budget will make necessary the following baseball schedule. Games will be played on Fridays and Saturdays. The schedule may be made to Sporton to play the Wilkes College freshmen and the Scranton - Keystone Junior College teams. The broadcast, a Wohni- nek University will be played at Wilkesburg. The season will be opened with a game between the freshmen and the sophomores.

The baseball team will play local high schools. Kirby Park will be used for all games.

The tennis team is arranging a full schedule of games with college teams. Two former Wyoming Valley champions will be on the team. J. P. Lord, rover, captain, and Charles M. Schofield, fresman, are the only men remaining from the 1935-36 team. The tennis team is planning to have an exhibition match with the junior varsity team and to have a tournament for the members of the team. The tennis committee has been appointed by John Gittens, faculty adviser and coach. A junior varsity team may be organized to play high school teams of the Wyoming Valley.
The Forum

As seen by

A group of outspoken student leaders with a moderate degree of foresight and courage have undertaken to bring to the honor of Bucknell University Junior College some well-deserved recognition. Handicapped by a late beginning and certain obstacles, these boys have no small credit for their determined effort, and it is gratifying to see a college educated for the work of this generation. The "Seminars" have proved to be a valuable addition to the curriculum, providing a higher level of instruction and support for the students.

By itself, this has been a fair experience that our students can be proud of. If it is not, it should be repeated. A "Seminars" can become a final goal. "Twos not a solo performance, for both were accomplished by a chain of choral Sugden Bucknellian leaders led by impresses-improvised "Chuck" Cornors. Tomorrow night they'll be their best--and then some. What say they? The same crowd, the same music. In the balance of the speakers, let not the "Seminars" be seen.

I know that they contributed to one's ability to express one's self, but I never dreamed that it could assume the proportions of their life work.

From Shakespeare's "Tempest" is this following quotation: "Look down, you ghosts, and on this bank between, a wreath of crown." Perhaps this alone can bring them from themselves.

The "Bison Stampede" is ever watchful for potential leaders. We feel sure that those individuals who so laughably and indiscriminately phủ the walls of the "Gentlemen's" lawns are victims of prejudice. These boys would, however, be victims of preconception and literary talents into more profound channels. I am certain that the standards of "originality" of this institution were in most perceptibly higher.

Love, like a chance of life, is played. But your hands are discarded for a new deal.

Charles Burns, Jr.

Professor Hall Attends Convention

Voris D. Hall, assistant professor of the New York University, presided at the joint convention of the American Federation of Students of America on February 21 and the International Students League of Columbia University in New York City.

The convention was conducted in the most efficient manner, and nearly everyone present will agree that he was more interested than anyone else.

It is clear that kindliness is the fundamental basis for good manners. If you are in doubt, wonder whether your own conduct leaves you in the right. Whether it is right to do it to the saucer, whether it is right to hit it with a spoon or not to remove it from the saucer. Think what it is like to hit the saucer, and then realize.

These ideas are by no means the most pleasant thing about all this is the process of acquiring kindliness.

First, be interested. Nothing is so complimentary to a person as to know him, and to look for the best in him. If you will concentrate on displaying an intelligent attitude of occupation with the words of another, you will find yourself more and more interested in being interested.

The kindliness is the fundamental basis for good manners. If you are in doubt, wonder whether your own conduct leaves you in the right. Whether it is right to do it to the saucer, whether it is right to hit it with a spoon or not to remove it from the saucer.

Chatter

A carpenter is a slyy; any man's curtice can beat him at booming nails.

No matter what the physics books say, the center of gravity is always W.

According to C. O. McIntyre, many men today is living by the sweat of his bul.

Athlete: — A dignified bunch of muds, as usual, cursed one or slain the other.

Flatterly, like perfume, is to be sniffed at but not swallowed.

Personal testimony of Cy Barnacle, of Freshmen, that there's visiting spot the third day.

Brief mention: Where there's a will there's a way.

Money is damp when printed—also when thrown. It's a great plan for the morning and missed at night.

A lady who points in a public place is a great good idea—nearly carries her eyes.

With all the powder women use its no wonder that they can shoot off their faces.

A word of comfort to those accused of eating like a horse: a horse eates without a mouth, when he has been in the mouth.

If all the ammunition in the world was laid end to end they never would reach a conclusion. —F. E. Kelder.

Any hard boiled egg is yellow inside.

A kiss is nothing divided by two-meaning persecution for the infant, scarcity for the youth, fidelity for the middle-aged, and homage for the old.

Rich men and clever thieves take things easy.

Thumblip biographic of Achilles—A courageous great Greek who operated a slaughterhouse business in Troy about the 1180 B. C. but was finally picked in the heel, his only vulnerable spot, and died—Morale of this story: Long life depends on being well shielded.

The pun is said to be the cheapest form of wit. In that case wags are properly streched.

Bigness is a form of insanity in which a man insists on having three board bills instead of two.

And then there's that gem of a definition for F.A.C.E.—a fertile sap-

Dancing a very forward way between collar button and neck and full of cheek, chin and chatter. The crop of the male face is hair harvested daily by scurupulous souls and tolerated for weeks by slack-

ers.

Noah Webster, who should know, de-

fined it as a continuous hollow sound, as of cattle in pain.

Engineers To Hear Campus Profs.

The Engineering Club has invited two faculty members from the campus to address future meetings of engi-

neering students. George A. Irland, as-

sistant professor of electrical engineer-

ing, will speak on television at the next meeting of the club. At a later meeting Bernard C. Finkle, assistant professor of chemical engineering, will talk on "Metallurgy and Metallobiology." The engineering group is planning a trip to the Harding Power Plant in the near future.

League of Nations Planned

Plans are now underway for a model League of Nations to be held at Buck-

nell University Junior College sometime late in March. The event will be strictly intramural. Students in the History of Western Man course will take part. Mr. Daniel J. Gage will take charge of the organization. He will be assisted by Dr. J. Oris Gilham.

Faculty Will Judge Debates

Several members of the Bucknell University Junior College faculty will act as judges at a series of debates ar-

anged by Forty Port High School during March and April. At a debate last evening between Forty Port and West-

morton High Schools, Dr. Wilfred H. Crook and Mr. Daniel J. Gage were judges. Mr. Gage and Mr. McCullough will serve as judges of a debate between Forty Port and West-

morton High Schools. Dr. Eisenhauer Dr. Eisenhauer, Mr. Godcharles, Mr. H. Hughes were also been requested to judge debates to be held within the next two weeks.

Boxing Dropped From Program

Efforts to organize a boxing team at Bucknell University Junior College this year have been discontinued, according to an announcement made recently by Joseph Scuccia, who has taken an active interest in organizing a team. Uniform difficulties make it upwise to con-

continue present plans for this season. The administration has announced that boxing will be a regular part of the sports program for next year if sufficient student interest is shown in this sport.

Women Plan Assembly Program

Under the direction of Joan Arna, Strong and Dora Ellien, Beta Gamma Chapter, the Women's organization, is ar-

ranged a special program for assembly.

The assembly program last Tuesday was charges of Thomas Knoff, a member of the freshman class. Warn-

ing William B. Henry and Mr. Arthurwere speakers at recent as-

semblies.

Mathematics Club Meets

At the meeting of the Mathematics Club tomorrow evening Anthony Toles will speak on "Sym pathetic Projective Geometry."

Albert Rohita was re-elected presi-

dent of the club at a recent meeting. Donald Roselle was elected vice-president and William Yeager, secretary-treasurer.

Miss Brooks At Dean's Convention

Dean Majoli E. Brooks attended the convention of the National Association of Deans of Women at Atlantic City on February 25, 26, 27 and 28. Franklin D. Roosevelt and Mrs. Charles L. Board were prominent speakers on the program.

Women Honor Mrs. Stillman

Mrs. Donald Stillman will be guest of honor at a tea for faculty wives to be given next Thursday afternoon by the women students.

Frances Fleming is chairman of the committee in charge of the affair. She is assisted by Agnes Wood, Rachel Rosser, and Hilda Fletcher.

Girls' Team Loses

The Junior College girls' basketball team was defeated on Wednesday, Feb-

uary 27, at the Y. W. C. A. gymnasium by the Ashley High School team. The score was 15-13.

On Friday, March 1, the Bucknell team was again defeated by the King-

ston High School girls' team 37-26.

Basketball Team Has Good Season

Six Games Won and Seven Lost During Year's Play

The second season of basketball at Bucknell University Junior College has been successful from many angles. Playing a most difficult schedule, the Varsity team has made an excellent record, winning six out of 12 games played to date. Members of the var-

sity are Captain Leon Kolosnowsky, John Stenoung, Vincent Mason, Scott Mills, Harry Trott, Vincent

Lott, Andrew Giers and Joseph Gour-

du, Dillie Thomas and Stanley Thomas. Coach Henry Peters de-

erves credit for the formidable com-

bination he put on the floor in every game.

The Junior College team twice de-

feated the McCann-School of Business and the Scranton-Keytone Junior College quintets. Single games were won from the freshman teams of Bucknell University and St. Thomas College. The team lost to the Villanova College freshmen, the Temple University freshmen, the Colgate University freshmen, and to teams representing Pennsly Prep, Dickinson Seminary, Wyoming Seminary, and the Hun School.

The year's results, not including the opening game's tie to be played tomorrow evening, are as follows: Bucknell University Junior College, 3; McCann-School of Business, 35; Junior College, 47; Scranton-Keytone Junior College, 22; Junior College, 23; McCann School of Business, 24; Junior College, 22; Villanova College, 26; Junior College, 26; Temple University, 49; Junior College, 22; Colgate Universi-

ty, 24; Junior College, 22; Pennington Prep, 31; Junior College, 14; Dickinson Seminary, 49; Junior College, 28; Scranton-Key-

tone Junior College, 50; Junior College, 28; Bucknell Univer-

sity.

Thousand Volumes In College Library

Librarian's Report Lists Many Purchases, Gifts and Loans

The library of Bucknell University Junior College now owns 1,175 volumes, according to the first semester report submitted by Miss Kathryn Hughes, the librarian. When school closed last June, the Junior College owned about 250 volumes, 200 of which were catalogued. At present, all volumes are catalogued.

The uncatalogued consist largely of bound magazines donated by the Wyoming Historical Society and of a 177 volume set of "The War of the Rebellion," a gift from the Bucknell University Library at Lewistown. The Hoyt Library also gave several volumes, among which were a set of "Messages and Papers of the Presidents" and Scott's "Waverly Novels." Including the number of gift volumes, which total 160, are government documents presented by Congressman C. M. Sypher, Purple Heart and Silver Star recipient, Andrew Sordoni.

In addition to these books the library has acquired by loan from the Wyoming Historical Society nearly 1,000 volumes, including valuable source material in American history, census reports, historical and sociological material.

In the collection of volumes the literature and music and poetry collection. The collection of books on philosophy and political science is fairly large, but the lack of German, French and Russian has been noted, especially in the field of sociology.

The science collection, which consists of only 24 volumes, is large. Science books are being constantly added, however. The lack of science books is partially overcome by subscriptions to several magazines dealing with scientific subjects. Among these magazines are the "American Mathematical Monthly," "Chemical and Pharmaceutical Review," "General Electric Review," "Science News Letter," "The Science News" and "Science," which the library subscribes to 12 magazines and receives almost as many more as gifts.

The total circulation for the first semester was 1,145 books, of which 1,050 were checked out from the reserve shelves. The average number of books taken out by each student was 8.6. The average number of non-reserve books circulated per student was only 3.5.

Registrar Speaks At Banquet

At the Father and Son Banquet held in the Lion's Circle Hotel in West Pittston last Monday, Regis- trar George E. Stookey was the principal speaker. The banquet was held at the University Baptist Church.

Political Science Club Attends Council Session

In furthering its program of viewing as many local government institutions as possible, the Political Science Club attended a session of the Wilkes-Barre City Council last Monday afternoon, March 8, at the City Hall. This close view of a local governmental unit enabled the club members to get a more complete picture of how city government functions. The next trip will be to view the County Court House and, if possible, the proceedings of the naturalization court. The meetings for this visit are in the hands of Baltie Hinton and Edward Harrman.

Material for the club scrapbook is accumulating rapidly. Many newspaper clippings have been received and are ready for inclusion in the book.

The Political Science Club is planning a banquet for the latter part of March to which it will invite the Junior College debating society and a rep- resentative of the college dining room.

Committee Selected At Dramatics Meeting

Last Monday evening Mrs. Margaret He Evans Carrow, well-known reader, was guest speaker at the meeting of the Dramatics Society which was held in the women's lounge. Mrs. Carrow's subject was "Dialectics." She illustrated several pages of dialects from the literature of the society on the campus. The debate was preceded, by brief talks by Dr. Tom Mayock, president of the Eighty-Third Democratic Club, by Dr. Irving L. Churchill, coach of debating at the Junior College, by Attorney A. F. Caruso, Jr., Assistant Professor Arthur L. Brandon of Lewisburg. Each group offered a brief explanation of the value of inter-collegiate debating and a few words on their personal ambitions. A Dutch lunch was served.

J. C. Debaters Will Meet Elizabethtown

Political Science Club Will Sponsor Contest On March 19.

The Junior College debaters will meet the Elizabethtown College team on March 19, this debate will be sponsored by the Political Science Club. About 250 persons heard the debate between the two junior colleges last Saturday. An equal number of Elizabethtown University Junior College and Bucknell University at Onondaga Hall on Sunday, February 24. The debating contest was of the Oxford type and no decision was rendered. The Eighty-Third Democratic Club sponsored the affair. Miss Catherine Toole, of the Coughlin High School faculty was chairman.

Bucknell University At Wilkes-Barre, Penna.

The Bucknell University Junior College at Wilkes-Barre is a branch of Bucknell University. The Junior College is a four-year institu- tion in which the first two years are the same as the admission requirements at Lewisburg. Credits earned at the Junior College are Bucknell University credits; they will be accepted wherever Bucknell University is recognized.

Bucknell University has widened its campus to include the Wyoming Valley. Two full years of college work are offered at the Junior College.

The courses offered to freshmen and sophomores at Lewisburg are duplicated at Wilkes-Barre. The University has equipped expensive, modern laboratories at the Junior College in order that satisfactory courses in science may be given. No other institution offers such facilities in Wilkes-Barre.

The Junior College is rapidly building up a library of its own under the direction of a professionally trained librarian.

The Bucknell University Junior College also offers a wide variety of elective courses and evening courses at the Junior College Building in Wilkes-Barre. Such courses are offered for both graduate and undergraduate credit.

The Bucknell University Junior College has an exceptional faculty. Every member of the staff has had graduate training; several have received doctoral degrees from accredited institutions in America.

For further information, consult the Registrar, George R. Faint, 29 W. Northampton Street, Wilkes-Barre, Penna. (Telephone W-B 2-6303.)

A catalogue or special bulletins will be mailed upon application to the Registrar.
