College Circle K Will Be Host at Penna. Convention

by George Pavlush

History repeats itself this weekend when the College Circle K plays host for the Seventh Annual Pennsylvania District Convention. Wilkes-Barre hosted the first District Convention, held in 1962.

The current leader of the Frank J. Champi of the University of Pennsylvania. Local interest will be focused on Nelson Smiles, current District Secretary, who will aspire for the office of Governor. In addition to ten-year elections, 13 trophies will be given to the winners of the five competitive content - Achievement Award, Single Service, Interclubbing, Oratory, and Displays. Last year the Wilkes club captured the Achievement Award and the top Display. The Achievement Award is given to the club which has compiled the most outstanding record of service to campus and community for the entire year. The award-winning display involved a panoramic view of some of the projects conducted by the club.

All competition will revolve around this year’s theme for the convention - "Electoral Masquerade," and is designed to provide an opportunity for those interested in running for important student offices to help familiarize themselves with the process prior to the fall elections.

Students Students "Liliom" Tomorrow, Sunday at CPA

A talented cast of Wilkes College students has been in rehearsal for several weeks, under the direction of Alfred S. Green for "Liliom," the 1922 play which was adapted to music successfully as "Carousel." It is the story of a banker, Liliom, at an amusement park carousel who meets a domestic and marries her. Learning that he is about to become a father, Liliom participates in a highway robbery in order to enhance his fortunes. He is caught in the act and submits himself rather than to arrest. He dies and is brought to trial in a magistrate's court in Heaven. He is sentenced to a term in the purifying fires of Hell, and when the sentence is served, is permitted to return to earth with a chance to perform a good deed.

In the title role of Liliom is Edwin Mandi, who has already won for himself an enviable reputation on the campus and throughout the community both as a soloist and as an actor. His interpretation as "Othello" captivated Center audiences as did his role in last year's "A Raisin In The Sun." He is a music education major pursuing a B.S. degree.

Playing opposite as his young bride is Kansas City native Shirley Ellis who, with Mr. Mandi, also won prestige on the Center stage last year with her role in "A Raisin In The Sun." The music education major pursuing a B.S. degree.

When questioned about his nomination, he commented, "The presidential election provides me an opportunity to offer my services to the student body—an opportunity that I consider to be both an honor and a challenge. If elected, I will face the heavy weight of great responsibilities with the challenge with it and concern."

Lodeski, a member of the sophomore class, is the son of Mr. and Mrs. Alphonse Lodeski, 57 Main Street, Edwardsville. He is a sociology major and has served two years on Student Government, one as a member of the Student Senate and also takes an active interest in the campus community. He is a member of the Society for Political Science and has been the recipient of the Academic Freedom Committee's award for outstanding work in the humanities.

Lodeski offered the following comment, "Although my feelings at the time are mixed, I believe I will be chosen as a nominee for the presidency. It is not secure that I am the progressive candidate and if I (Continued on Page 4)

Student Representation Proposed On Various Faculty Committees

by Ken Jacobs

At a faculty meeting on April 22, the proposal for student representation on faculty committees will be up for a final decision. The proposal which was recommended by the Student Life Committee has already received the approval of the Administrative Council.

The idea for the proposed student representation originated in the discussions of the Student Life Committee. This committee felt strongly that students at the College could make very real contributions and should be included as full partners in the conduct of higher education. Quite a few regional colleges have enacted this program, and during the last decade there has been a definite trend toward for

New Candidates Lodeski And Kopen Begin Contest For SG Presidency

Two experienced and dedicated student leaders, Dan Kopen and Ben Lodeski, have been nominated for the office of president of Student Government which will campaign for the position until April 25 when the election will take place.

The College Commons will serve as the central campus polling place with student identification required. The candidates will offer their respective platforms at a special assembly scheduled for April 24 and again in the Beacon the following day.

Kopen, a junior, is the son of Mr. and Mrs. Francis Kopen of 29 Dana Street. Former mayor and has served on Student Government for three years. During that period he has planned Freshman Orientation and participated as one of two student representatives on the Student Policies Committee. Kopen is also an active member of the Debate Society, the chemistry club, and participates in intramural athletics.

When questioned about his nomination, he commented, "The presidential election provides me an opportunity to offer my services to the student body—an opportunity that I consider to be both an honor and a challenge. If elected, I will face the heavy weight of great responsibilities with the challenge with it and concern."

Lodeski, a member of the sophomore class, is the son of Mr. and Mrs. Alphonse Lodeski, 57 Main Street, Edwardsville. He is a sociology major and has served two years on Student Government, one as a member of the Student Senate and also takes an active interest in the campus community. He is a member of the Society for Political Science and has been the recipient of the Academic Freedom Committee's award for outstanding work in the humanities.

Lodeski offered the following comment, "Although my feelings at the time are mixed, I believe I will be chosen as a nominee for the presidency. It is not secure that I am the progressive candidate and if I (Continued on Page 6)
New Curb on Police

Despite rising crime statistics, the Supreme Court continues to make arrest and conviction of offenders more difficult. The latest decision involved clarification of the controversial Miranda decision, and the court ruled once again in favor of the accused. While the event is now hardly fresh enough to be considered news, we do feel that some comment is pertinent. Everyone's college friends can heed the example set by this simple man, one of our last "authentic heroes," as President Nixon called him in eulogy.

For most of us, Eisenhower was the first man we can recall serving in the White House. Those were the halcyon days of the Fifties. It had become the popular parlor game of more recent years to denounce the former General's political and administrative capabilities, especially by those who were still in the Romper Room stage at the time he served this nation.

However, it goes without saying that even those who were unimpressed by or disapproved of his presidential role could rarely work up even a dislike of the man, much less a hatred. It sounds corny to say it, but he was one of the last symbols of those things that America has always stood for: Raised in a frontier town in Kansas, a graduate of West Point whose favorite song was the sentimental Army Blue, a genuine war hero who helped plan one of the most daring invasions in history, a quiet, unassuming man, quite unintellectual, one who could work up a little more than a "Well, I'll be darned" when

Letters To The Editor

Testimonial Dinner Invitation Issued

By Assistant Dean

To the Editor:

Although the football season is now a memory, there still remains a tradition that has been maintained since the 1950s. The American Legion will honor the 1968 Wilkes football team at a testimonial dinner on May 9th. The dinner will be held at the Platts American Legion on Friday, May 9th, at 6 p.m.

I am writing to invite you to this event. The dinner will be held to honor the 1968 football team, and guests will be able to view the trophy presented to the team by the American Legion.

Sincerely yours,
Arthur J. Hoover
Assistant Dean

Disgruntled Student Suggests Revising Current Gym Program

To the Editor:

In view of the fact that it has become necessary to air the complaints and revision suggestions of Wilkes College students, I consider it time for someone to speak up concerning the present Physical Education program. Being a girl, I can only give first hand knowledge of the female aspect which I can inform with colors gained from conversation with other female sufferers.

The most prevalent gripe, I am sure, is the importance attached to the Physical Education courses. Gym is a no credit course, which a student is offered for only one credit. With all the work which is involved in trying to pass these courses, they should definitely carry more credits. I can remember the agony of studying for the Health Boards, trying to cram almost as much knowledge about the human body as I had to cram knowledge of World History for that THREE credit course.

In closing, I suggest that the gym program be revised, a girl cannot learn the skills of the male world in three hours a week.

Sincerely yours,

[Continued on Page 3]

Students Face Inexplicable Loss of Grants

by Sanford R. Starobin

The Pennsylvania Higher Education Assistance Agency will take new and stern measures to see that disorderly students are denied scholarships, an agency spokesman said recently.

Prime targets will be students who were "known to be a source of causing disorder and then transferred to another school." We're going to check and make sure that they don't get a scholarship to go somewhere else," said the spokesman.

Appeals Permitted

Executive Director Kenneth H. Reeder said the PHEAA is checking the cases of 109 scholarship recipients who have been dismissed or suspended from school this year. If a dismissal was for disciplinary reasons, said Reeder, the student would become ineligible for a new PHEAA scholarship or loan.

The ban on loans and grants to those pupils, however, could be waived by the agency's committee on appeals.

Gave $48.5 Million

Students dismissed from school for academic reasons are placed on probation for a semester and must prove their own way.

The PHEAA is the largest source of scholarships and student loans in the state. In this academic year, it has distributed $48.5 million in scholarships to 80,000 pupils and $123,000 outstanding loans guaranteed by the agency, which total $10.1 million. In the next academic year, the agency plans to distribute $60 million in state scholarships.

The PHEAA's tighter enforcement of current laws against disciplinary dismissals is apparently springing from the public clamor that has grown in the wake of student disorder.

Bills have been proposed in both houses to penalize severely disrupt students.

Asks Federal Laws

Present legislation that students, state scholarship must be "satisfactory character," said the determination of satisfactory character will remain the responsibility of the parents.

Reeder said Federal laws prohibiting financial aid to disruptive students are significant springs from the public clamor that helped the PHEAA determine which students have become ineligible for a new PHEAA scholarship.

He said schools would be required to notify the PHEAA when Federal aid is withdrawn from a student so the state agency could end its own aid as well.

THE BEACON

To strive, to seek, to find, and not to yield.

The number of persons who will attend the affair will be limited by available space. At present, I have allocated only 100 tickets for sale on campus — sales to parents, students, faculty and friends. The price per ticket is $5 and the absolute deadline for reservations and payments is Friday, April 25. If you are interested in attending this testimonial for our team, please send your remittance to me before April 25. Checks or money orders can be made payable to me. Your ticket will be mailed to you the day your remittance is received.

A list of patrons will be included in the official printed program for the affair. If you would like to be listed as a patron, please enclose an additional $1.00 for each name you want listed.

Sincerely yours,
Arthur J. Hoover
Assistant Dean

Student class for which no credit is given, because one cut would mean automatic failure. A comment I heard at the time the system was put into effect was: 'With all the emphasis they put on Physical Education they should at least be able to make a program of some kind of a program that you can major in it.'

Secondly, I have heard many complaints about the way classes are scheduled.

[Continued on Page 3]
Wilkes Plans to Offer New Degree In Field of Materials Engineering

Wilkes College, in Septem-
ber of this year, will initiate a pro-
gram leading to the Bache-
lor of Science Degree in Ma-
terials Engineering, thus be-
coming the first private uni-
versity in the United States to provide such an opportunity at the undergraduate level.

Education in the field of Materials Engineering has been gaining rapidly in recent decades. The demand for graduates has greatly ex-
ceeded the supply, and as man ex-
plains his technology and extends the limits of knowledge to the far reaches of space, the demand will undoubtedly become even greater.

Every engineer is vitally con-
cerned with the materials available to him. Whether he be a com-
puter, a space vehicle, a bridge, or an automobile, he must have a thorough knowledge of the properties and behavioral characteristics of the materials he proposes to use. Wilkes College is prepared to take a lead in engineering education to require all engineers to be well grounded in the fundamen-
tals of Materials Science.

The proper selection of material deter-
mines and attempts to change the atomic arrangement and chemical composition of the various elements, in an attempt to effect a desired change in their properties and behavioral characteris-
tics. Since Wilkes College is an architect, and his building blocks are the chemi-
ical elements which nature has thoughtfully provided. The building blocks can be assembled in different ways to yield metals, plastics and ceramics with desirable properties.

Steel, which is primarily alloys of iron and carbon, are particularly illustrative of the need for Material Engineers. Current production of iron and steel exceeds 120,000,000 tons per year, a rate equivalent to more than 400 tons of steel per year for each engineer in the country. The versa-
tility of the steels as engineering materials is evidenced by the many kinds of steel which are manufact-
ured—over 2,000 varieties!

At one extreme are the very soft steels used for deep-draining applica-
tions. Steels for electrical purposes as transformer sheets must have special magnetic charac-
teristics so that they may be mag-
nitized and demagnetized many times each second without power losses. Other steels must be com-
pletely non-magnetic, for such ap-
lications as wrist watches and mine-sweepers.

Solid State Electronics

Perhaps the most spectacular con-
tributions of the Materials Engineer to modern technology have been in the area of solid state electronics. Materials such as germanium and sillicon are available to the electronic industry on a routine basis, with extraordinary purity; for example, silicon can be purchased such that for every 1,000,000,000 atoms of sil-
corn there is but one non-silicon or impurity atom.

Certain ceramic materials, which are compounds consisting of metal-
ic and non-metallic chemical ele-
ments, can be made to conduct el-
tricity as efficiently as metal or as poorly as an insulator. The transil-
ion from metallic to insular prop-
erties is achieved by an electric field. This is the basis of the insulator-
ship.

Semiconductor devices being pro-
duced at the present time cannot be (Continued on Page 4)

Communication Course Investigates Careers

A Communications Workshop—a unique course created specifically to explore job opportunities in the various areas of communications—is being offered to college men and wo-
men planning for a career in this field by Secretarial Systems, Inc., 350 Third Avenue, New York, N.Y.

Beginning in July and extending through August, the Workshop will consist of six two-week sessions and visual presentations by well-known professionals in communica-
tions and broadcasting. The Work-
shop was a “first” in New York, and was designed to give students a grasp of the entire field of commu-
nications by explaining the basics in the specialized areas, such as ad-
vertising, public relations, etc.

“However,” Miss Owen added, “this Workshop is an active discus-
sion course intended to help young people find jobs in the communica-
tions fields, and to help them advance in their jobs. Lectures will be concerned with practical aspects of how to find jobs, how to prepare for interviews and what steps to consid-
er for advancement once on the job.”

Additional information about en-
rollment in the Workshop may be ob-
tained by writing to: Secretarial Systems, Inc., 350 Third Avenue.

Editorial

(Continued from Page 2)

he was shocked—all these things combined to make up an IKE, and it seems a bit sad to realize that such will never be again.

Even while watching his funeral, one planned himself, one felt the impression that the last vestige of better ways. It was a mixture of old-fashioned military honors with religion that did not seem maudlin.

It is difficult to determine for what things he will be re-
membered. Perhaps generations to come will recall a name in a history book, the man who led the D-Day forces or Normandy, or the 34th President of the United States. Surely he has no need of anything very quotable. The most we can say is that he set an example. And in hopes that we are not contra-
vening a previous statement, it may be that the words he will be most remembered for were his last:

I have always loved my wife.
I have always loved my children.
I have always loved my country.
And I have always loved my country.

After so many violent deaths of noted figures, it was almost a feeling of relief to know that this man lived a full, rich life, and passed away peacefully in the knowledge that he had given his best.

Disgruntled

by Pete Harbort

The Administration has raised tu-
ition $30 per semester for the 1969-
70 academic year. Room and board was also increased by $15 a semester.

In the opinion of Dr. B. Hopkins, Registrar, the reasons for the raise are “generally high oper-
cating costs” and to allow Wilk-
es to maintain high academic stand-
ings.” Richard Rausin, Director of Financial Aid, considered the raise necessary in part by a cut in Federal and State aid.

Wilkes students should realize that tuition is being increased in practically all schools throughout the country, particularly in private schools. Tuition at Wilkes is consistently lower than other pri-
ivate schools.

While most of the Administration recognized the need to raise tuition, it was emphasized that Dr. Eugene S. Paull was reluctant to (Continued on Page 4)

Science Courses Initiated

At the March 4, 1969 meeting of the faculty, introductory courses in Geology and Hydrology were approved. This phase of the plans to develop an optimal minor area in Environmental Science which will be offered in the future, includes courses in Climatology and Geology.

The program in Environmental Science is to be provided in all disciplines with the opportunity to gain experience in the structure and environment. Any or all of these courses in Environmental Science are to be taken and could result in the equivalent of a minor in Environmental Science. These options would be especially valuable to students in the Social Sciences, Business and Economics, as well as those in the Humanities and Sciences.

For those interested in pre-registering for these courses, they will be offered under the titles of Environmental Science 110 (Geology), and Environmental Science 104 (Hydrology.).

If it appears that the effect of man upon his environment is of increasing concern to our society. In the year 2000, courses constituting the basic physical, chemical, and biological forces at work in our environment will be critical to anyone involved in almost every discipline.

Students interested in these courses should contact Dr. Alvan Unger, who will discuss the program with them in greater detail.

Netmen Capture Victory By Narrow 5-4 Margin

The netmen of Coach Tom MacFarland gained their initial win of the season on Saturday when they defeated the Greyhounds of Moravian College by a 5-4 margin. The Colonels attack was led by the example of team captain Carl Magaglia along with the other three veterans on the squad: Bill Tarbar, Doug Valentine, and Dave Winitz. In the first match of the day Tarbar came through with a hard-fought victory over his opponent, Bruce Humphrey. In the second match, Winitz captured the second Colonels win of the day with an easy 6-1, 6-4 decision over Dave Runsey. Winitz took a strong early lead and coasted in for his victory.

In the third bracket, Valentine, showing a much-improved style of play, was able to defeat his adversary Pete Dirga by a 6-3, 6-2 advantage. Valentines played a tremendous amount of tennis last summer, and the long, hard hours of practice apparently paid off as he continually out-hustled and out-thought his opponent. The fourth and final Wilkes point to be earned in the singles events came through the steady efforts of Carl Magaglia. Magaglia used a strong forehand delivery to earn a 6-3, 6-4 set over Moravian's Jed Riddell.

The two newcomers on the squad, Jon Schifman and Bruce Rankins, showed some signs of nervousness in their initial appearances as varsity performers. Both, however, did give indication of a great potential for the future. Rankins lost his match by a score of 7-5, 6-0, while Schifman was defeated by the narrow margin of 6-4 and 6-3.

In the doubles contests Schifman and Rankins again put up a good fight before going down to defeat at the hands of John Steiger and Ray Jordan by a very slim 2-6, 6-3, 10-8 margin. Valentine and Magaglia also were defeated as they were unable to cope with the strong teamwork of Rumsey and Riddall. Rumsey also displayed a powerful serve which gave fits to the Wilkes twosome. The final score was 6-3, 7-5 in favor of the Moravian duo.

The final Wilkes point was earned by Tarbar and Winitz when they soundly defeated the team of Humphrey and Labert by 6-2, 6-3. The next encounter for the Colonels will be tomorrow against the Rider College netmen. Rider personnel fields a strong team and this contest is invariably the toughest match on the schedule. The next match will be held on Thursday, April 19, at 4:30 p.m.

Power, pitching, and some strong base-running all added up to two victories in three games for the Colonels baseball squad last week. In the first game, called at the end of eight innings because of darkness, the contest ended with the score tied 8-8. Bob Chisholm of Wilkes and Coach Rollie Sigmund of Scranton both appeared in the bottom of the seventh they appeared to have put the game out of reach. Kaschak, who had scored the eighth run of the contest on a long drive, was forced to return to third base when it was ruled that the ball had hit it had a ground-rule double. The Royals battled back to take the center of the eighth inning and the contest ended in an 8-8 deadlock.

Saturday's game against Juniata resulted in a masterpiece of pitching by Colonels Joe Zakowski. The former Juniata hurler consistently baffled the Juniata lineup with his combination of off-speed pitches, all of which are thrown with the same motion. Coach Schmidt had the following comment on the game, "I was a super-performance by Joe early in the season. Considering that we haven't been spending too much work on spinning the ball, his curve ball was really moving well." The only hit against Za- kowski came in the ninth inning on a Texas League single to center field.

The second half of the double- header saw the Colonels jump out to a quick 5-0 lead; Joe Zakowski was starting. Bill Sanlant and Tom Higgins. At the end of the fifth inning Wilkes had scored 16 runs without a Juniata baserunner crossing the plate. The Colonels were ready to start their trip for home.

Their relaxed attitude soon got them into trouble, however, as the Indians blew by the diamondmen to take a 5-6 lead. John Baranowski started and did a good job for the Colonels through the first four innings. Difficulty with his curve soon went to his head and he was replaced by freshman Ted Sokolowski. Sokolowski had trouble with his control and this, coupled with two fielding errors committed by his supporting cast, resulted in a 1-0 Juniata victory.

Commenting after the contest, Coach Schmidt stated, "I am pleased that the team is hitting so well this early in the season. We committed a few mechanical and mental mistakes but these are to be expected early in the season. Most of our emphasis so far has been on hitting the ball and we are paying off. The team batting average at this point is .347."

Beautiful New Spring Colors
Wilkes Golf Team
Loses Initial Match
To Scranton, 12-6

by Steve Newman

The Wilkes College golfers lost their first contest of the season on Friday to a strong University of Scranton squad. Poor playing conditions and a stiff wind also added to the Colonels’ troubles as the final score was 12-6 in favor of the Royals.

In the contest, pitting the number one man of each squad against the other, Walt Anushko lost out in a very close battle to Andy Panco. Anokoo managed to come through with a half and point, but was unable to get the good shot when he needed it most.

Joe Wielld, Wilkes’ “Mr. Everything,” ended his collegiate wrestling career recently with two stellar performances on the national mat scene. Wielld traveled to Brigham Young University of Provo, Utah to participate in the 31st Anniversary NCAA University Wrestling Tournament where he was subsequently chosen to wrestle in the Fourth Annual Third Annual East-West All-America Classic at Penn State University. The Colonels captain betters his 1968 performance in the NCAA tourney by gaining the semi-finals before falling victim to Dave Martin of Iowa State, 4-0. Martin later defeated in the finals when he lost to Cleo McGlohy, of Oklahoma, 6-1.

Wielld entered the consolation rounds where he garnered championship honors by pinning Doug Niebel, of Clarion State College and the reigning NCAA wrestling champion, 1:15. Earlier the Wilkes wrestler dropped a thrilling 3-2 decision to Michigan State’s Tom Muir in the battle for third place. The final buzzer housed with Wielld having 58 seconds of riding time in his favor.

One week later the Wielld wrestler entered the All-America Classic held at Penn State University before an enthusiastic crowd numbering in excess of 6,000. The meet pits the best senior wrestlers of the East against the best in the West in dual competition. Wielld carried the East’s colors in the 185-pound go under: the able tutelage of coaches Ken Kent, Northwestern, and Gary Rimann. The two-time NCAA College champ dropped a tough, 3-1 decision to Gary Rushing of Arizona. Wielld was the first Wilkes mat man ever to participate in the all-star event. Rushing accounted for the narrow victory when he caught Wielld with less than 45 seconds remaining in the bout and shackled all of his attempts to gain an escape. Wielld finished third in the NCAA tourney one week earlier.

The powerful East squad dominated the affair, winning seven matches, to gain a draw in one other match.

Coach John Reese expressed pleasure with Wielld’s capable performances, “Joe gave it all he had, just couldn’t pull it out. It was probably one of the greatest meets I’ve ever had the pleasure of watching—the matches were great.”

Asked to comment about the tourneys, Wielld offered the following: “It was a real thrill to be able to say I participated in these two national wrestling matches. I wish I had done better. I tried to represent Coach Reese and the school (Wilkes College) as best I could. I’m sorry if I let anybody down.”

The final comment is a belittling way to ring down the curtain on a possibly the greatest career Wilkes College, the Middle Atlantic Conference, and mat fans all across Pennsylvania will ever see, including all tourneys (MAC, NCAA, Wilkes Open, etc.) and dual competition over the past four years. Joe Wielld has accumulated the fantastic record of 96 wins and a mere 13 losses.

Bach Music To Be Sung In Concert

The Wilkes College Chorus will present a concert on Thursday, April 22, at 8:30 p.m. Eighty-five students will participate in the choral concert to be offered in the Center for the Performing Arts. The artistic concert is being offered to the students at considerable expense to the Music Department.

Selections will include Cantata No. 156 by Johann Sebastian Bach, accompanied by portervile organ and two flutes. Mr. Richard Chapline is the director of the ensemble. A select group of 12 vocalists make up the Madrigal Singers who will perform a series of folk song arrangements.

Committees (Continued from Page 1)

line, recommend, and propose educational policies for the College concerning future possibilities in 10 years or 20 years. It seeks to encourage integration of the efforts of the College and to link these efforts in the contemporary scene.

Like the Student Life Committee, it has no power to make decisions, only the power to suggest. Members of the committee discuss ideas, and when a consensus of the group is obtained, these ideas are sent to the president in memos. Administration members, and other individuals who might be able to carry them out.

The Educational Policies Committee basically proposes action to correct deficiencies in the educational framework, in contrast with the Student Life Committee, a more broadly oriented group which deals primarily with all phases of social life at the College.

The Educational Policies Committee meets every Tuesday. Often, Administration and faculty members are invited to speak. Dr. Rosenberg, attesting to the stimulating informal discussions which occur there, maintained that the meetings always extend to two or three hours. Commenting on the student members of the committee, Rosenberg said, "They don't take a backseat to anybody. The Committee has found that the student members have maturity, and come forward with ideas of what the College is doing now and what they would like to see it do in the future."

Topics which have been discussed at committee meetings include the parking problem, teacher evaluation, and the lengthening of library hours. The passfail system was viewed favorably, especially applying to junior and senior-level courses outside of one's major. Another important idea which emerged was rearranging the schedule so that the first semester would end before Christmas. Several local hospitals have appealed through the committee for part-time help. Though not all the ideas which are brought up during committee discussions are feasible, they all reflect a fresh and innovative approach. One such idea was to have the College sell its buildings to Luzerne County Community College and move out to the Back Mountain in order to escape the bustling city atmosphere and its inherent parking problems.

The Educational Policies Committee is open to ideas from all sources. Students can readily channel their ideas to the committee through Student Government. The committee will gladly welcome and consider them promptly.

SG Elections (Continued from Page 1)

I am elected, I believe that my liberal views will prove beneficial to the entire student body of Wilkes College and its government. With a certain amount of moderation, I plan to strive for a better Wilkes for all concerned."

WE'RE REASONABLE!
WE'RE DELICIOUS!
WE'RE OPEN!

The food's great . . . the atmosphere's beautiful . . . and the prices are right!

WHETHER IT'S A SNACK OR A STEAK, THE NEW FUN PLACE FOR EATING OUT IS JIMBLL'S. YOU WILL FIND HIGHEST QUALITY FOOD AT REASONABLE PRICES. FOR EXAMPLE: A BEEF ROYALE COMBINATION WITH FRENCH FRIES AND COLE SLAW FOR JUST $99.

BRING YOUR DATE TO JIMBLL'S WHERE YOU CAN ENJOY ANYTHING FROM A SNACK OR A MR. SOFTIE ICE CREAM TREAT TO A FULL COURSE DINNER. IT'S THE SATURDAY NIGHT PLACE THAT STUDENTS CAN AFFORD.

Open Sunday Thru Thursday 'Til 11 P.M.
Friday and Saturday 'Til 1 A.M.
Breakfast Saturday and Sunday From 8 A.M.
