Monday evening was a big moment in Ye Olde Chase Theatre. The announcement was made that Phillip Barry's "Hotel Universe," was being announced. Reading after reading had been an attempt in an attempt to portray Barry's sensitive characters. Viewers were impressed with the appearances, checked, interpretations examined. The picture could be a part in man's awe at the tale. Who would play Pat? Who would do the rest? The question turned to Norman? Tom? The aspiring actors could not be too far from the search. The opening night, tickets, costumes and makeup have to be ready. Props and furniture must be on hand. Picture will be white, for a postcard will be open to nightingale, spotlights. Hofstra College dealt a severe blow to the Colonial football team last Friday night. Not only did the Flying Dutchmen beat the Wilkes gridiron, it was the second straight victory for the rest of the season. The A game was clean and hard-fought all the way. Fiction towards the injury as an unfortunate experience, which can happen in any game.

Near the end of the third quarter, the ball was on the Hofstra 35 yard line. Hofstra had just tied the game with a running back to Stadin's line. They took the ball and again were threatening to score. Jack Pinkus, the Hofstra quarterback, took the ball from the center and started to run right on the famous "optional play." A quarterback running with this play has two alterna-

tives: he can cut back through the hole or he can lateral to the left back the ball. The ball was run around the end. Hofstra came up fast from his defensive half-

naut. Russ hesitated a moment to see if the ball-carrier would be completely covered by their line. Hofstra's defense closed in on the sideline, Hofstra's defensive line proved too strong for the line and the line was stopped, Hofstra's defense broke through to score a goal. Hofstra's defense broke through to score a goal.

On October 20 the Education Club held its first social meeting of the year. The meeting was a success because it cleared up business matters first by a vote of the entire group, then by a motion and second by a motion. The Future Teachers of America, in this age of initial better knowledge and sense of cooperation and integration connected with the N.E.A. (National Education Association), is working, and is considered as somewhat of a junior branch.

As Mr. Smith was present, members of the organization who belong to the group will work with honor and pride and should be undertaken not for the good it can bring you, but for the good it can bring to the public. Just as every member of the teaching profession should belong to the National Education Association and the National Education Association, so should all of the P.T.A. (Parent-Teacher Association) members. The P.T.A. is a group that helps the public and is considered as somewhat of a junior branch.

FLOODISM

“We have the party convention of my party in this Valley in a telephone booth on the Mountain Road.”

The first intercollegiate collegiate athletic game was a soccer contest between Rutgers and Princeton in 1869. Rutgers won, 6-4. American football ever since has been trying to make a claim on Old Coast.

Colonel Younger Brothers Look Good On High School Gridirons

BY WAITE CHAPKO

Football season is here. Colonels of all ages are singing the praise of the Wilkes football squad. But football season has another meaning for certain well-known students who “watch him go” this season. The statement of the Colonels and beloved younger brothers and younger sons of those brilliant football brains, has decided the course of those innocent people who have not heard of the glorious siblings of Colonel Bailey.

The younger brothers have decided to tell you of their brother, Sam, who plays a tackle slot for Congh- lin High. Their younger brother, Jack, a full back, is an outstanding performer. Sam Bailey is a student in the ninth grade, but he is already in the library, studying for his history. Jack Bailey is a senior, and he is already studying for his college entrance examinations.

Wilkes Students to Hear Salom Rizik

Next Thursday Wilkes students will hear author and lecturer Salom Rizik, speaking at the United Nations assembly. His topic will be "America is more than a Country." Mr. Rizik has been warmly praised by his audiences, who feel the inspiration of his strong faith in democracy. Of his book, "Syrian Vaselets", the New York Times said, "A rare and extraordinary chronicle..." A memoir that bubbles over like a mountain thing..." and that "is always telling, often picturesque, beautiful." These qualities seem evident in his speaking also, for in the past ten years he has been highly praised by his varied audiences.

Wilkes Collegians Give Noon Concert

The Wilkes Collegians, joining into their schedules of performances sooner than originally expected, will present a short program at the Irene Temple at noon today. The program is to be given in conjunction with the second report of the Assembly of the Wilkes-Barre area.

Conducted ably for the second successive year by Bill Crowder, the choral has developed sufficiently to enable it presenting a broader repertoire than has been offered on previous occasions. The following numbers will be among those sung: "Jesu Joy of Man's Desiring"; "Deep River"; "Kentucky Babe"; "Georgia"; "Philistines"; and "Battle Hymn of the Republic".

NOSE, THROAT, and Accessory Organs not Adversely Affected by Smoking Chesterfields

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes. A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields—10 to 40 a day. 45% of the group have smoked Chesterfields continuously from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-month period each smoker was given a thorough examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

The medical specialist, after a thorough examination of every member of the group, stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."
